

Ridge augmentation (Dentium Graft material)

Contents

Ridge augmentation [Defect]

1 OSTEON™ I + Collagen Membrane

[Large Defect : Exposure 4~5 thread]

2 OSTEON™ II + HA Collagen Membrane

[Large Defect : Exposure 4~5 thread, Anterior region]

3 Autogenous Bone + OSTEON™ II + OSTEON™ II Collagen

[Severe Large Defect : Exposure 6~7 thread]

4 OSTEON™ II Collagen

[None/Small Defect]

Ridge augmentation (Defect)

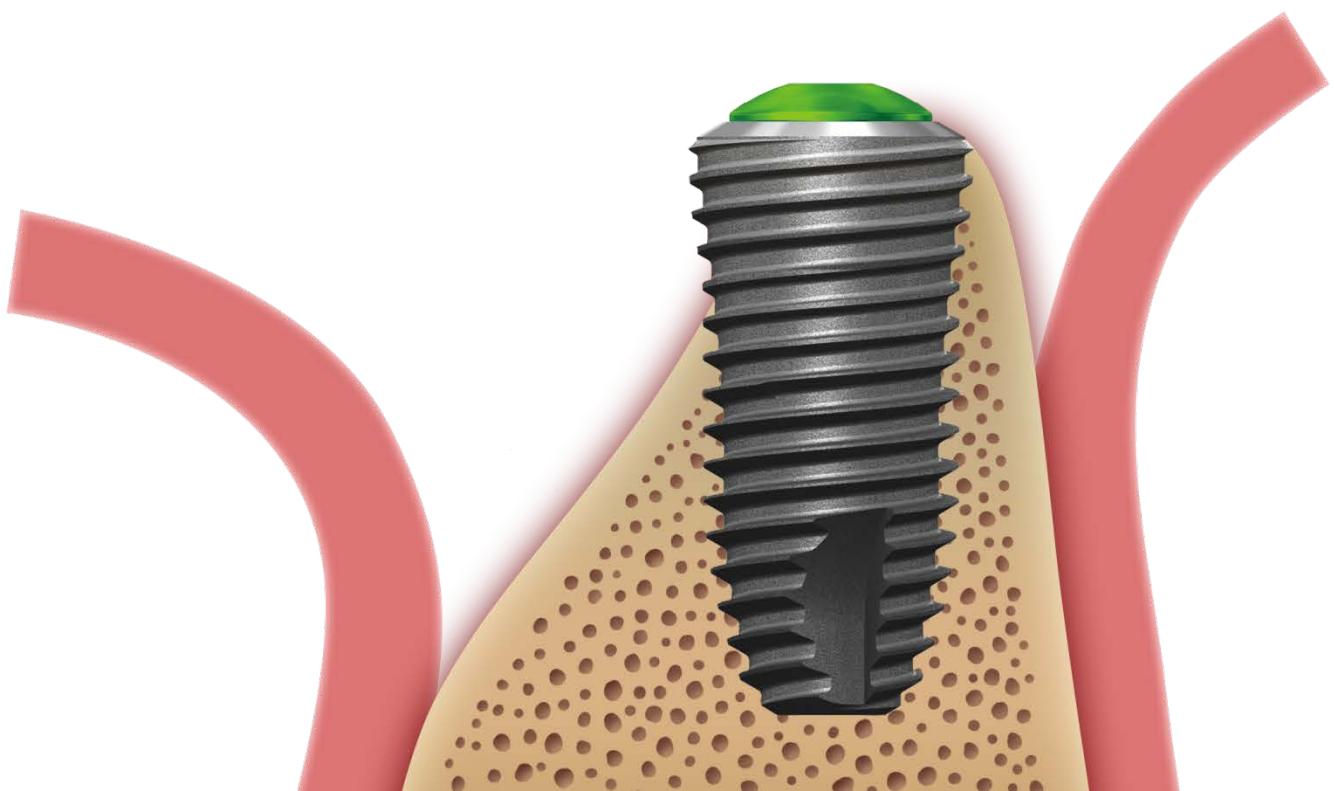

1 OSTEON™ II + Collagen Membrane
[Large Defect : Exposure 4~5 thread]

Dentium graft materials : OSTEON™II + Collagen Membrane

Fixture Implantation

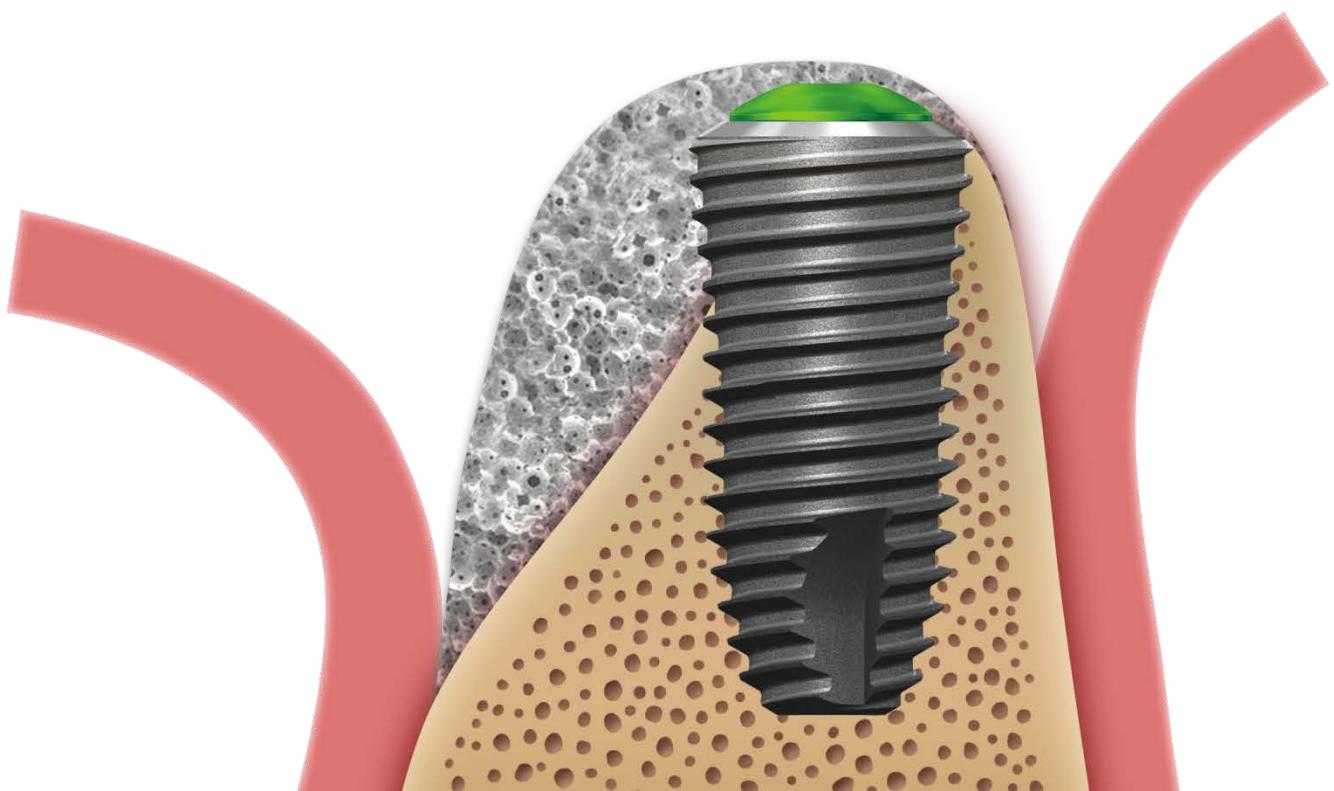

SuperLine : FX4510

Dentium graft materials : OSTEON™II + Collagen Membrane

Application of graft material

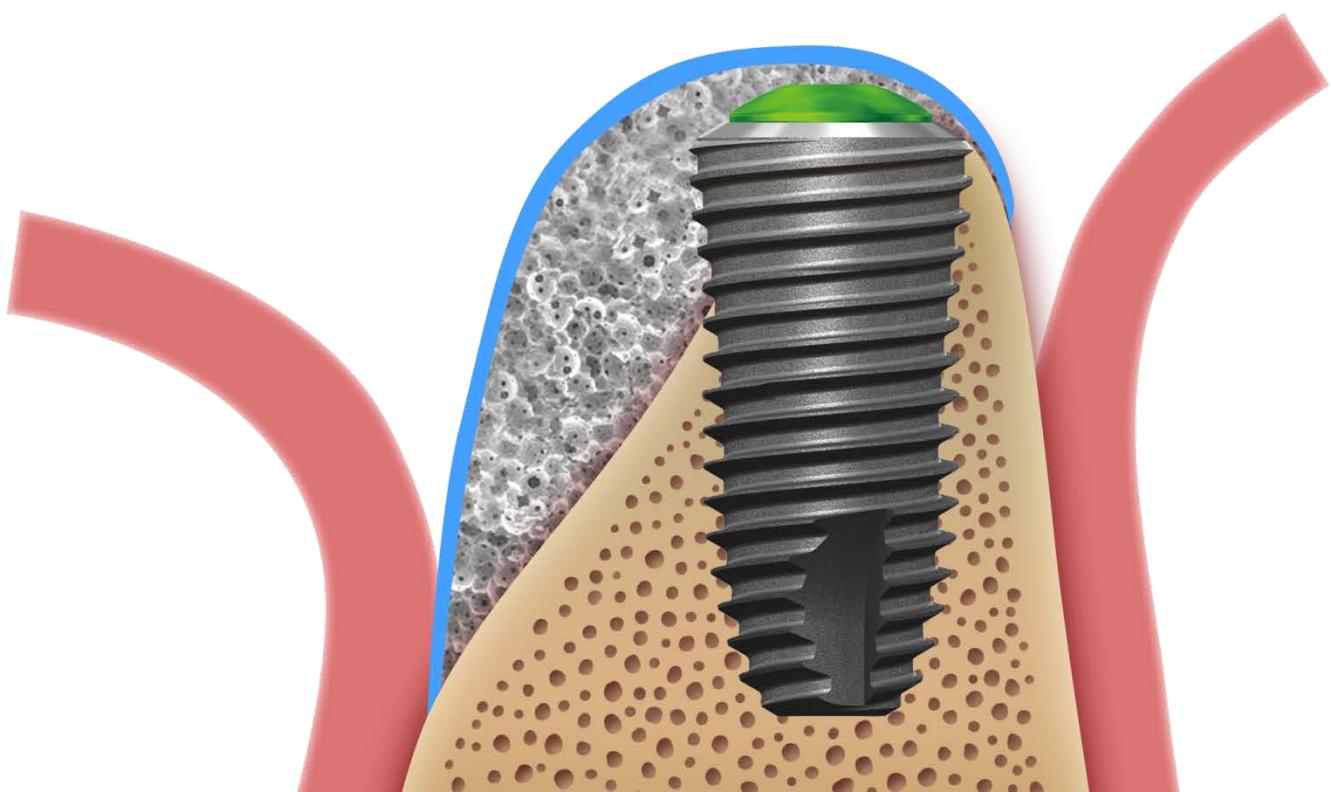

OSTEON™II

Dentium graft materials : OSTEON™II + Collagen Membrane

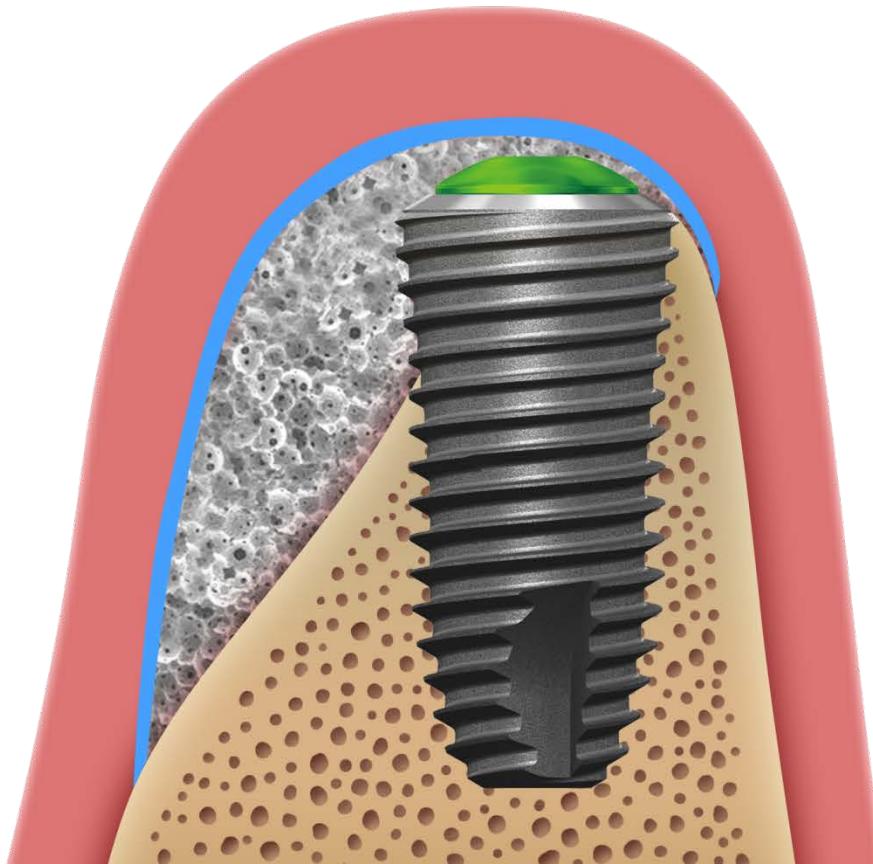

Barrier membrane application

Collagen Membrane

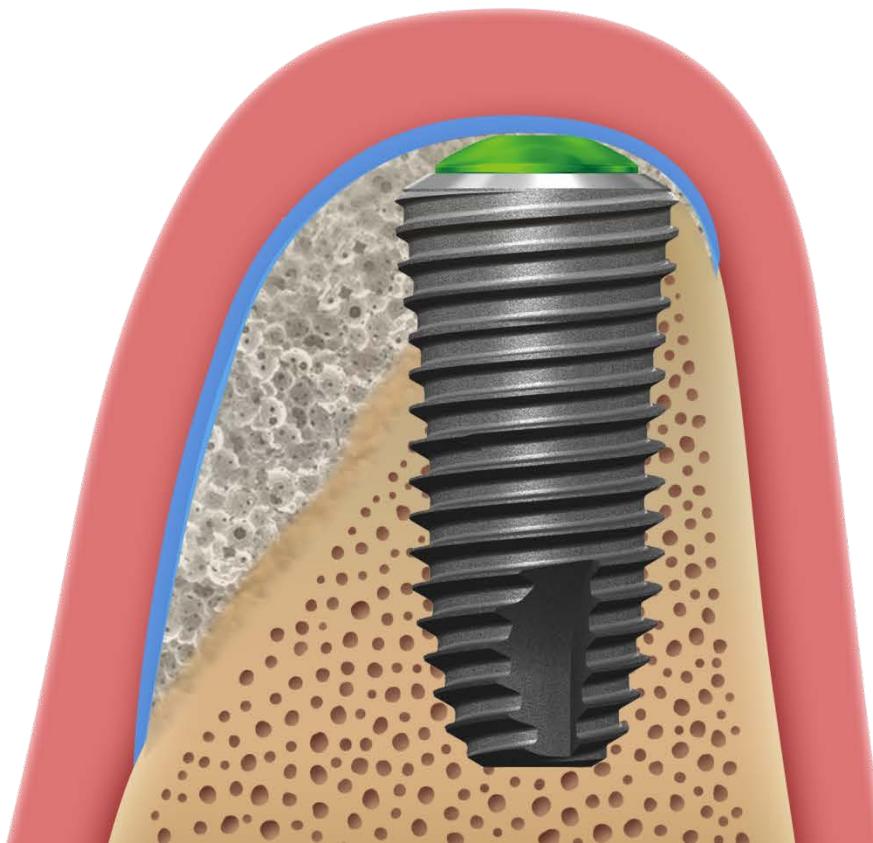

Dentium graft materials : OSTEON™II + Collagen Membrane

Healing

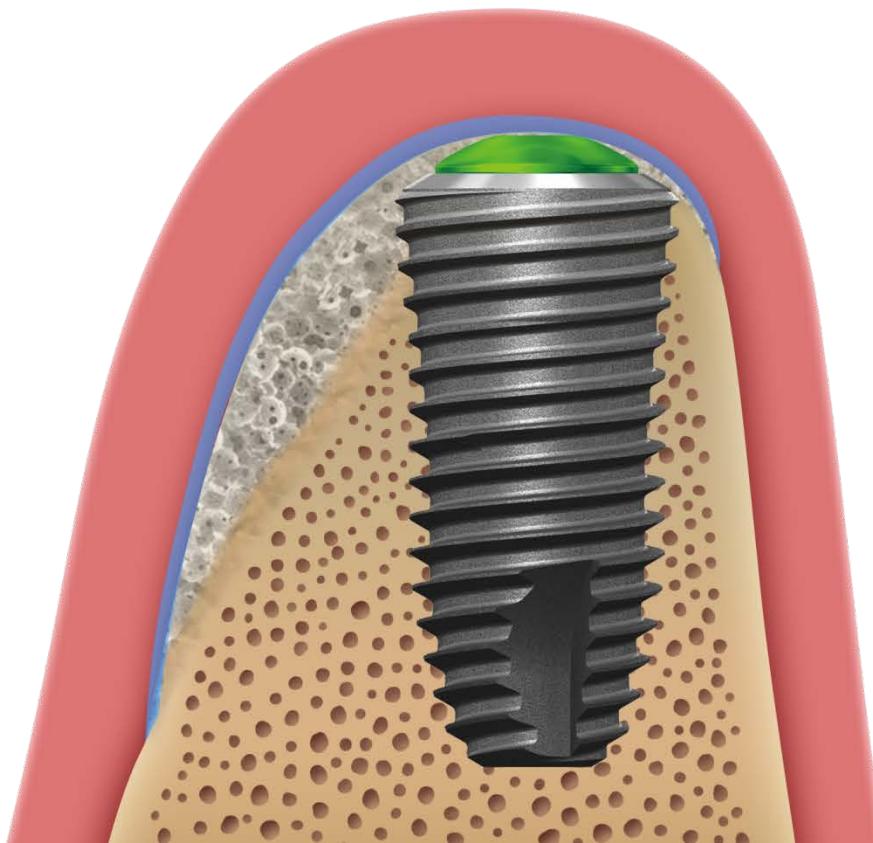

Dentium graft materials : OSTEON™II + Collagen Membrane

Healing

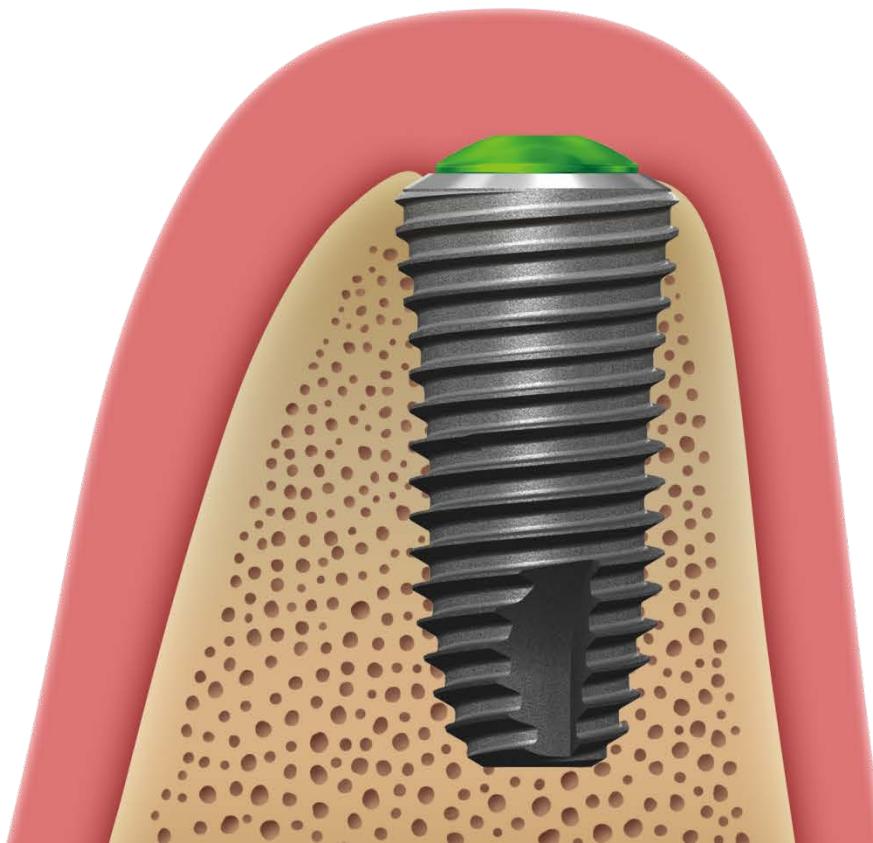

Dentium graft materials : OSTEON™II + Collagen Membrane

Healing

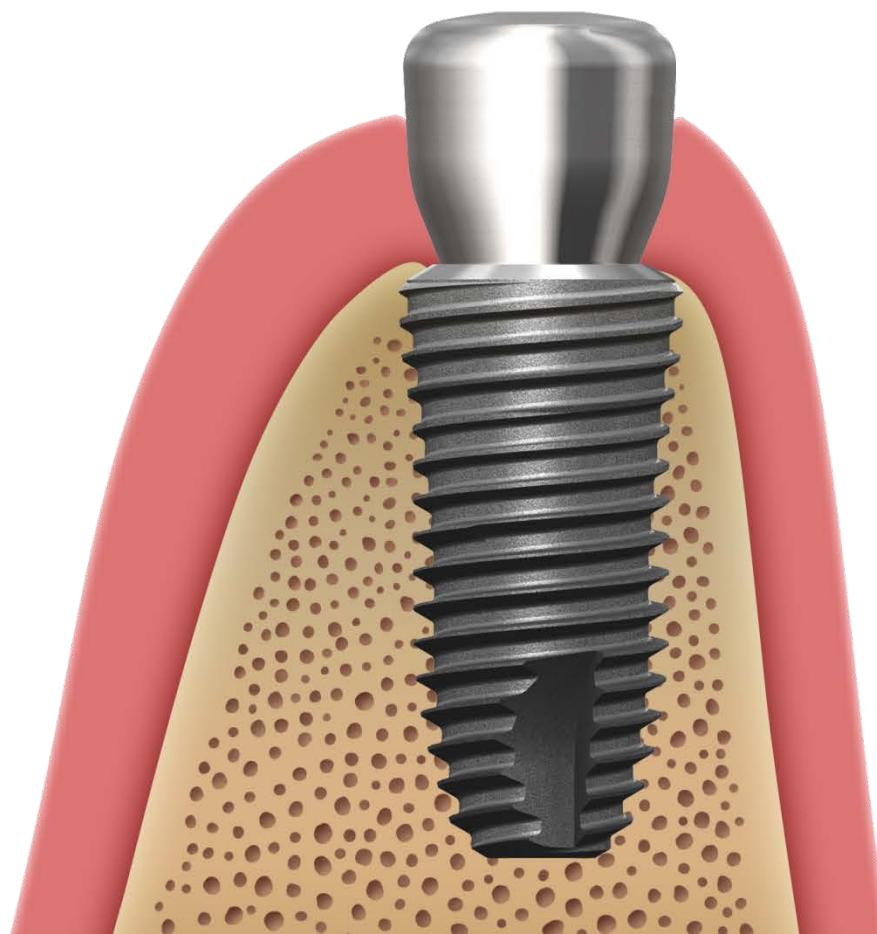

Dentium graft materials : OSTEON™II + Collagen Membrane

Healing

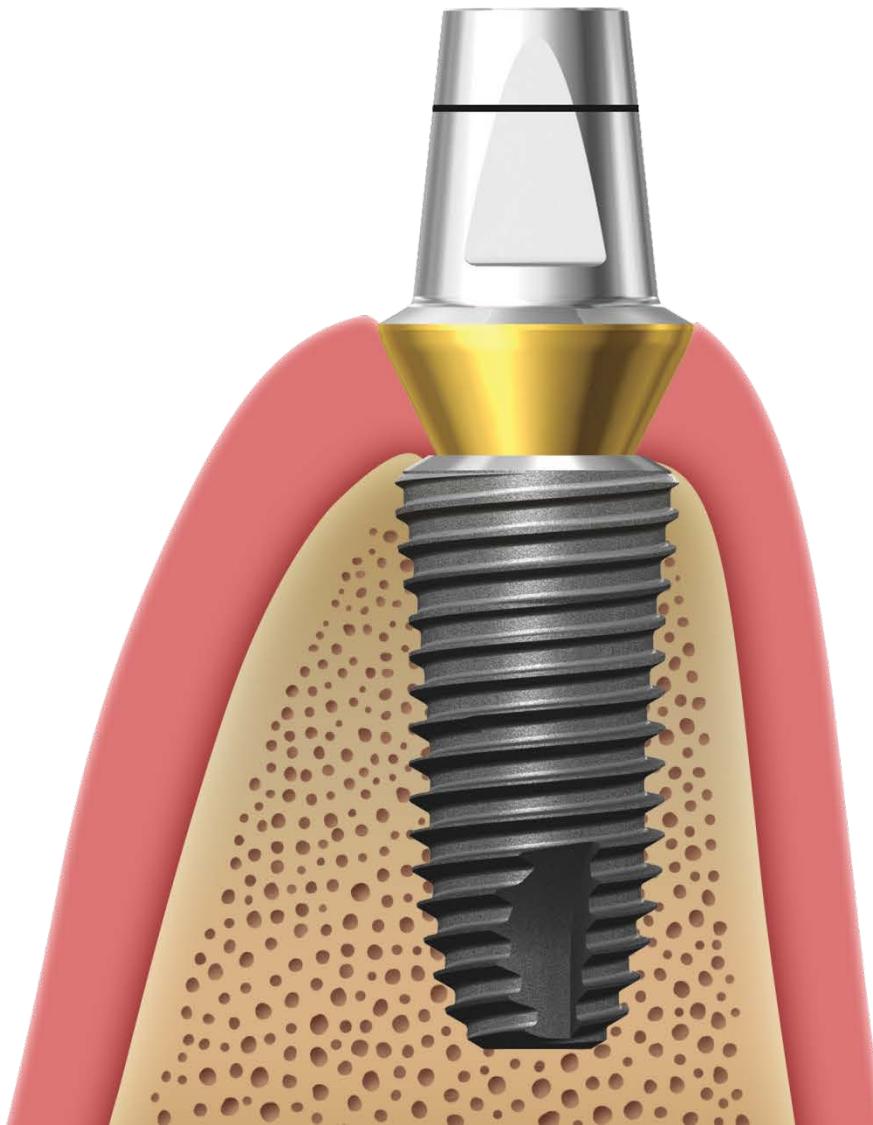

Dentium graft materials : OSTEON™II + Collagen Membrane

Healing Abutment Connection

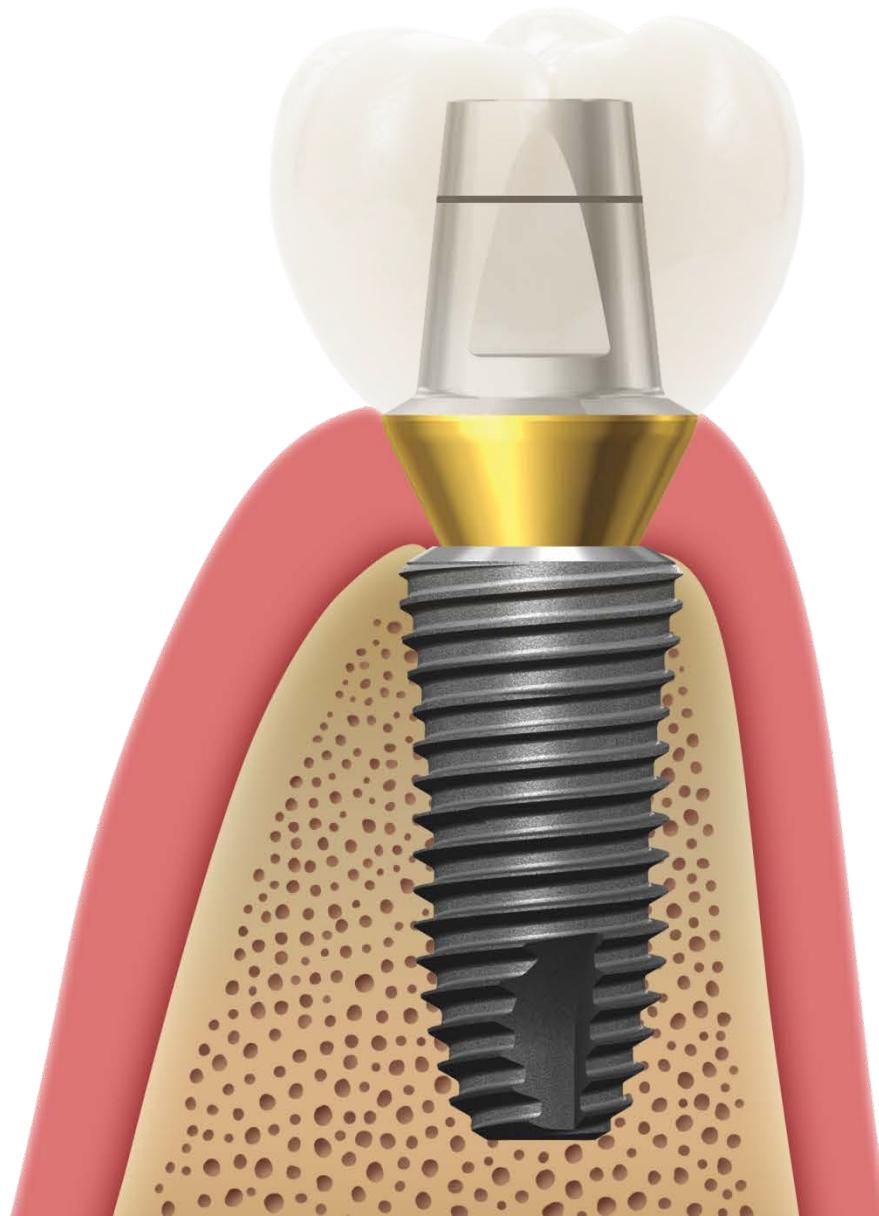

Dentium graft materials : OSTEON™II + Collagen Membrane

Dual Abutment Connection

Dentium graft materials : OSTEON™II + Collagen Membrane

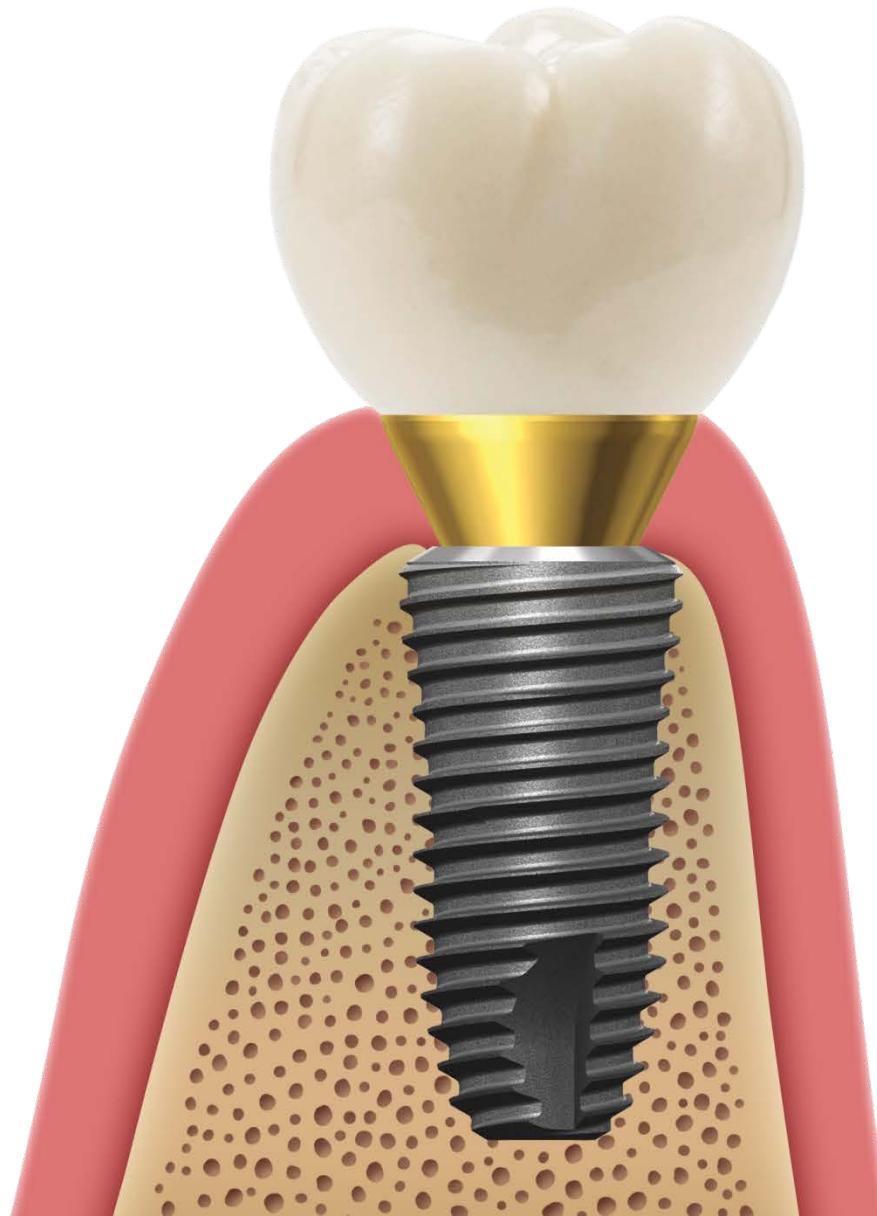

Final prosthesis

Dentium graft materials : OSTEON™II + Collagen Membrane

Final prosthesis

New bone formation

Ridge augmentation (Defect)

2 OSTEON™ II + HA Collagen Membrane

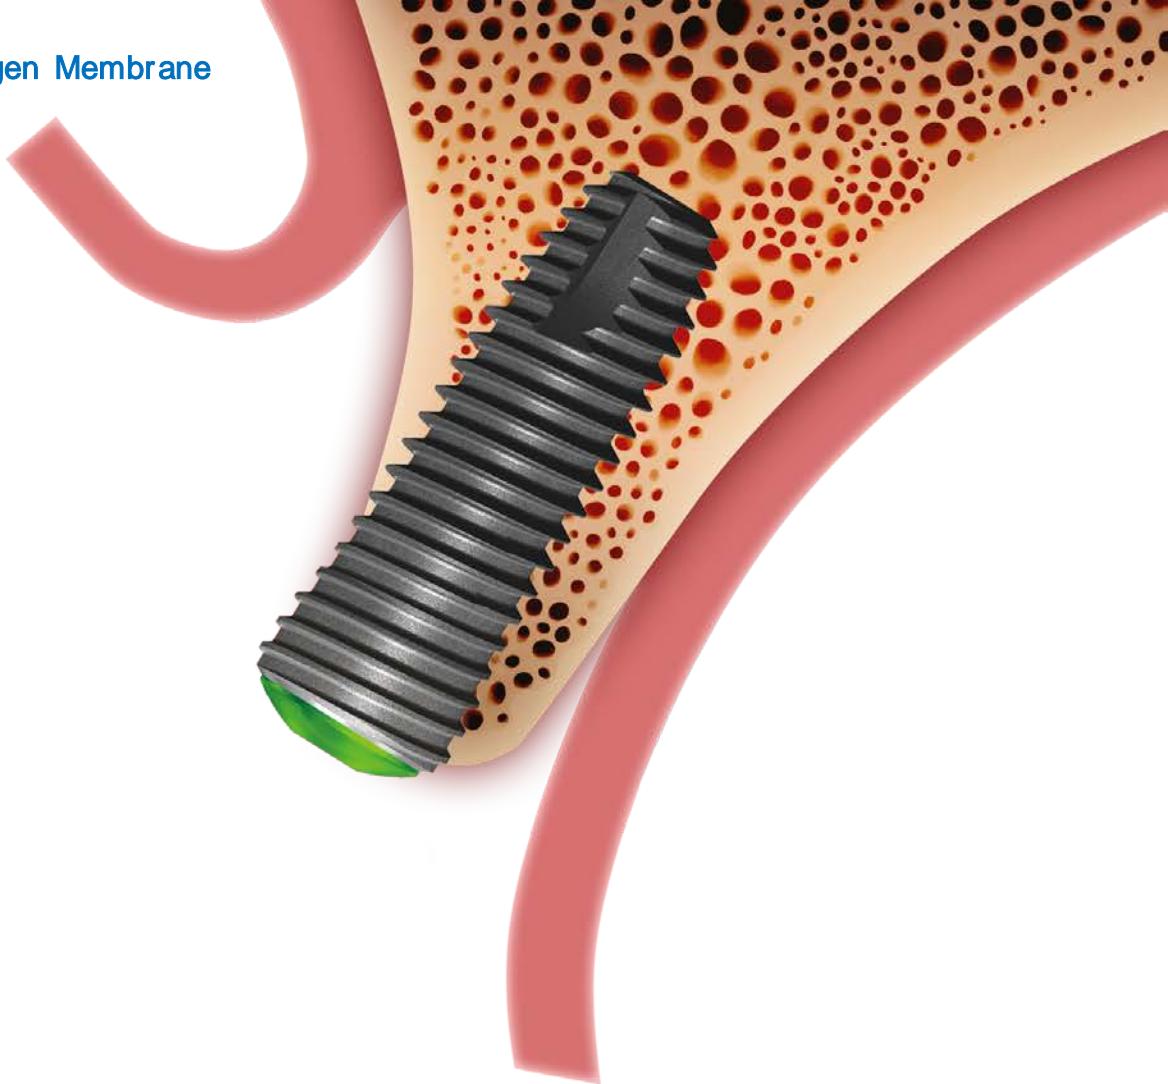

[Large Defect : Exposure 4~5 thread, Anterior region]

Dentium graft materials : OSTEON™II + Collagen Membrane

Fixture Implantation

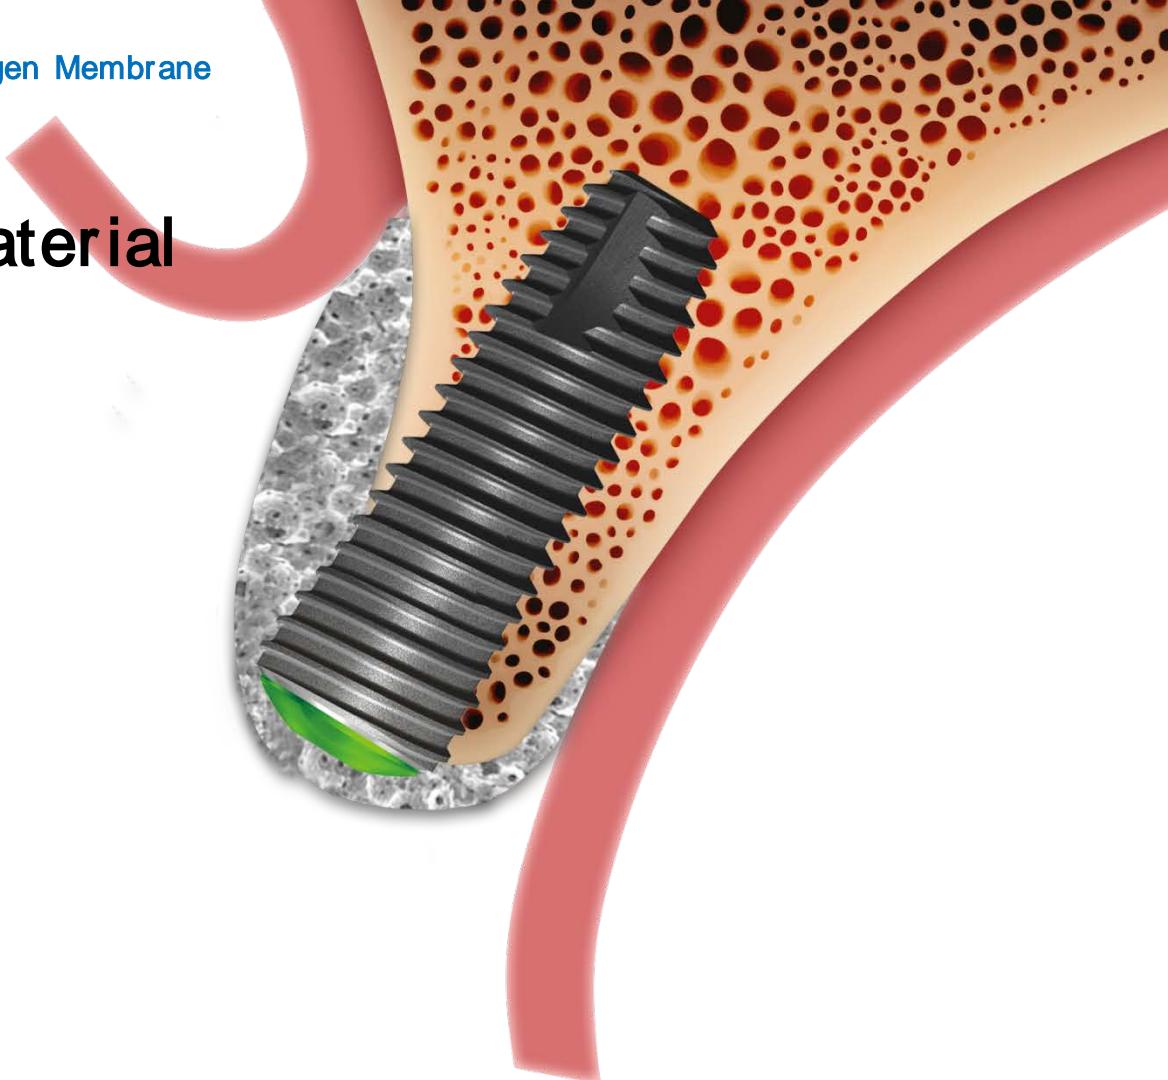

SuperLine : FX4510

Dentium graft materials : OSTEON™II + Collagen Membrane

Application of graft material

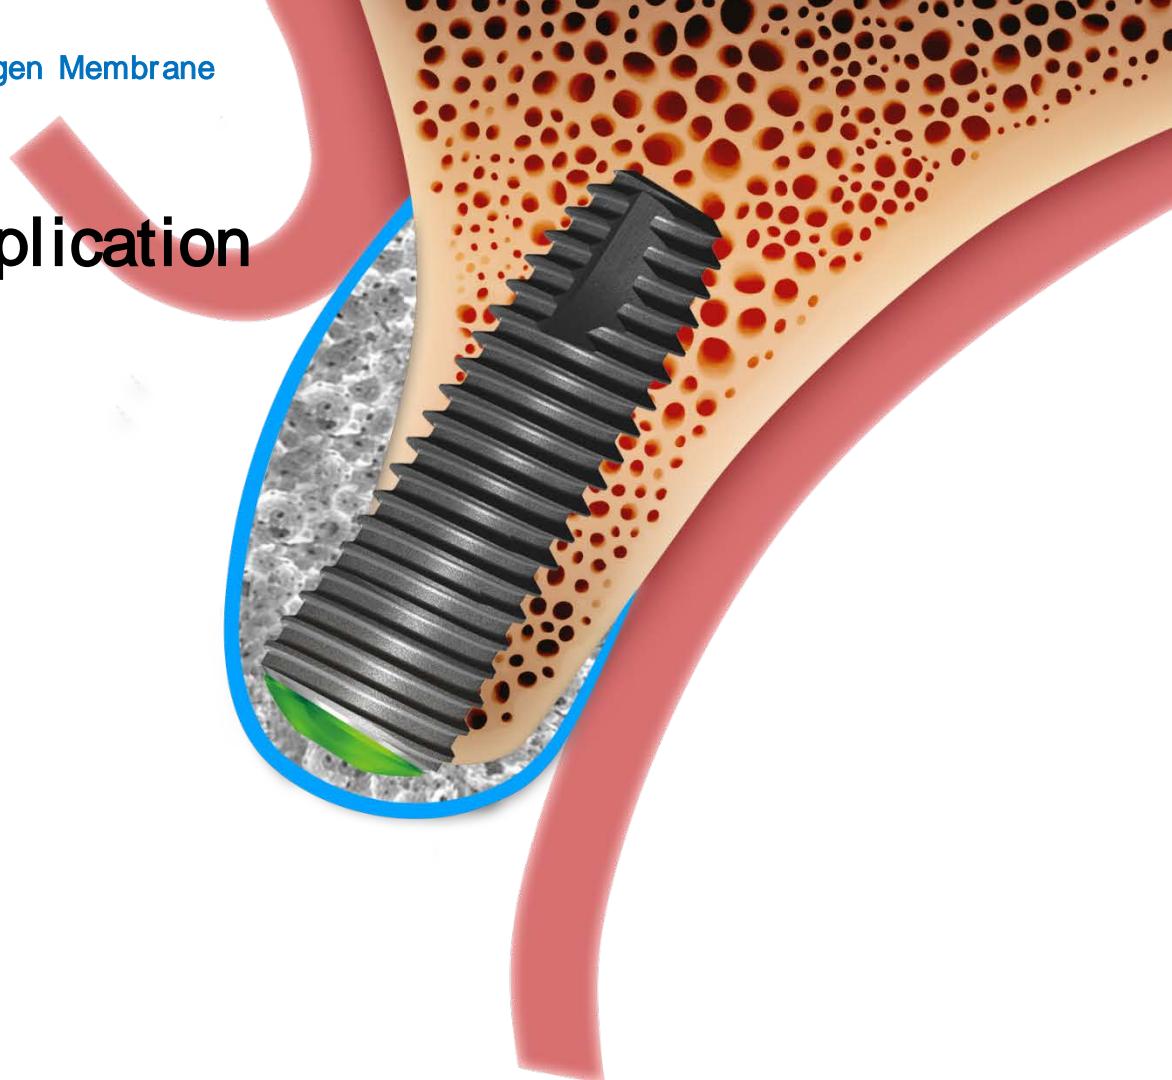

OSTEON™II

Dentium graft materials : OSTEON™II + Collagen Membrane

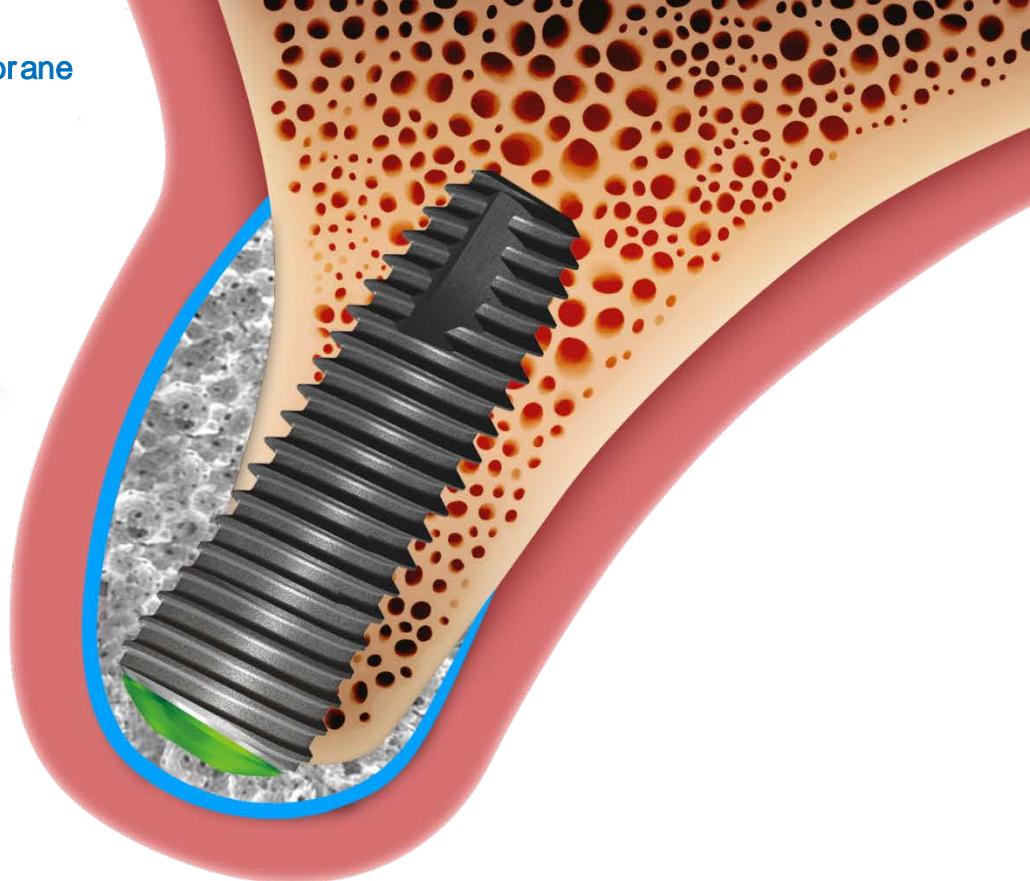

Barrier membrane application

Collagen Membrane

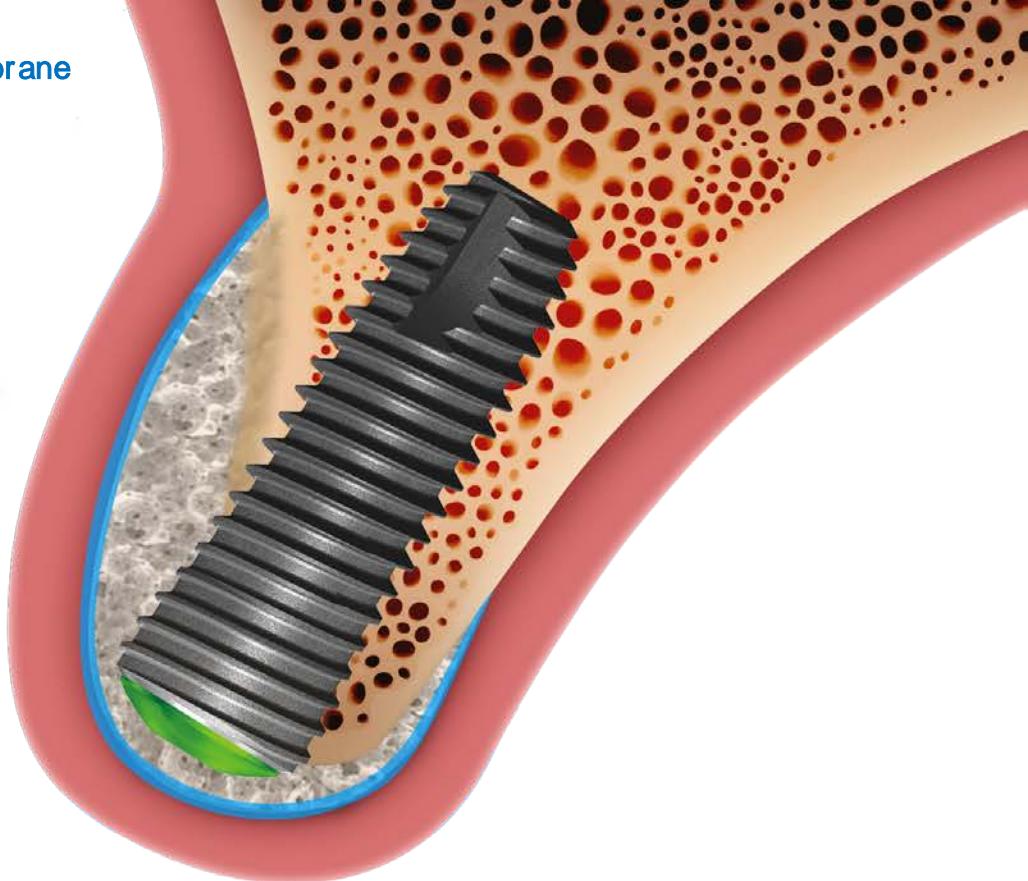

Dentium graft materials : OSTEON™II + Collagen Membrane

Healing

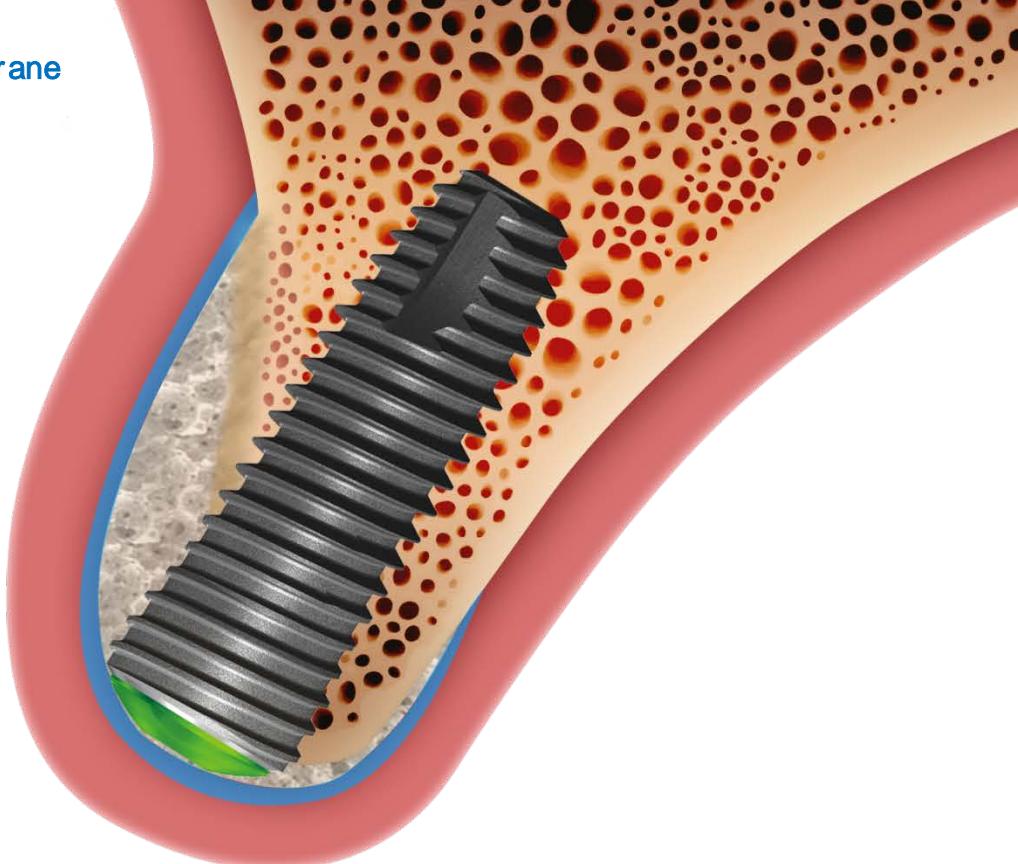

Dentium graft materials : OSTEON™II + Collagen Membrane

Healing

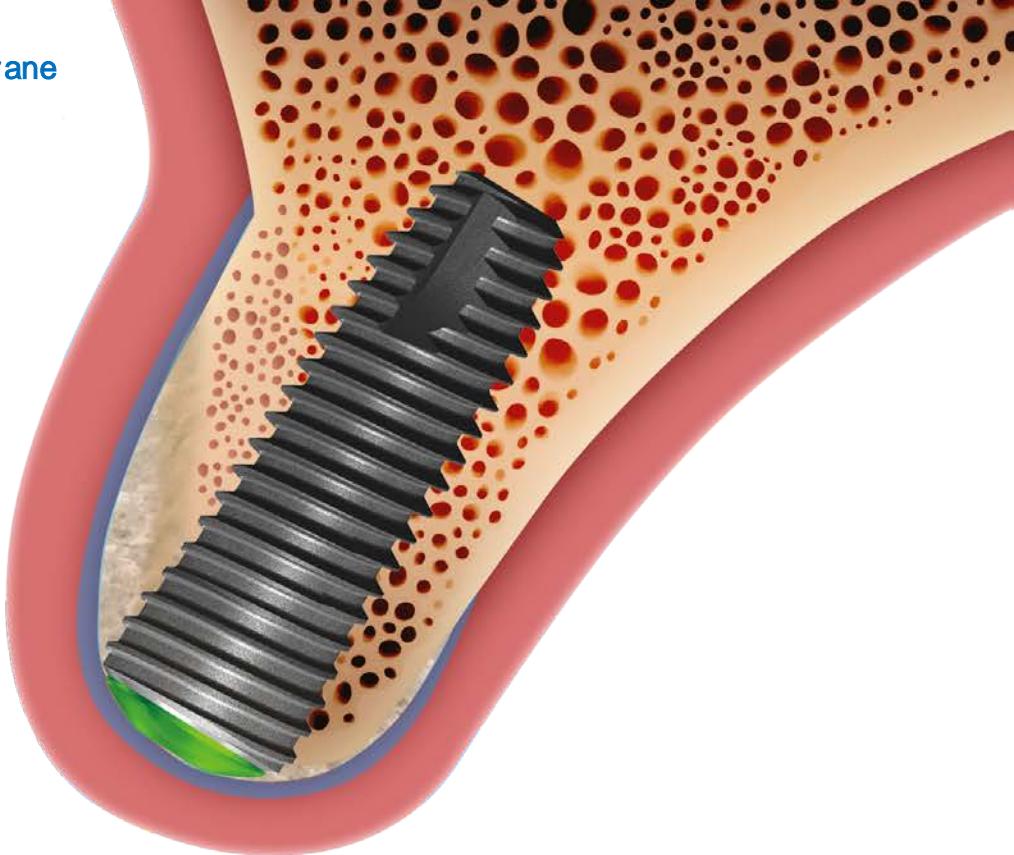

Dentium graft materials : OSTEON™II + Collagen Membrane

Healing

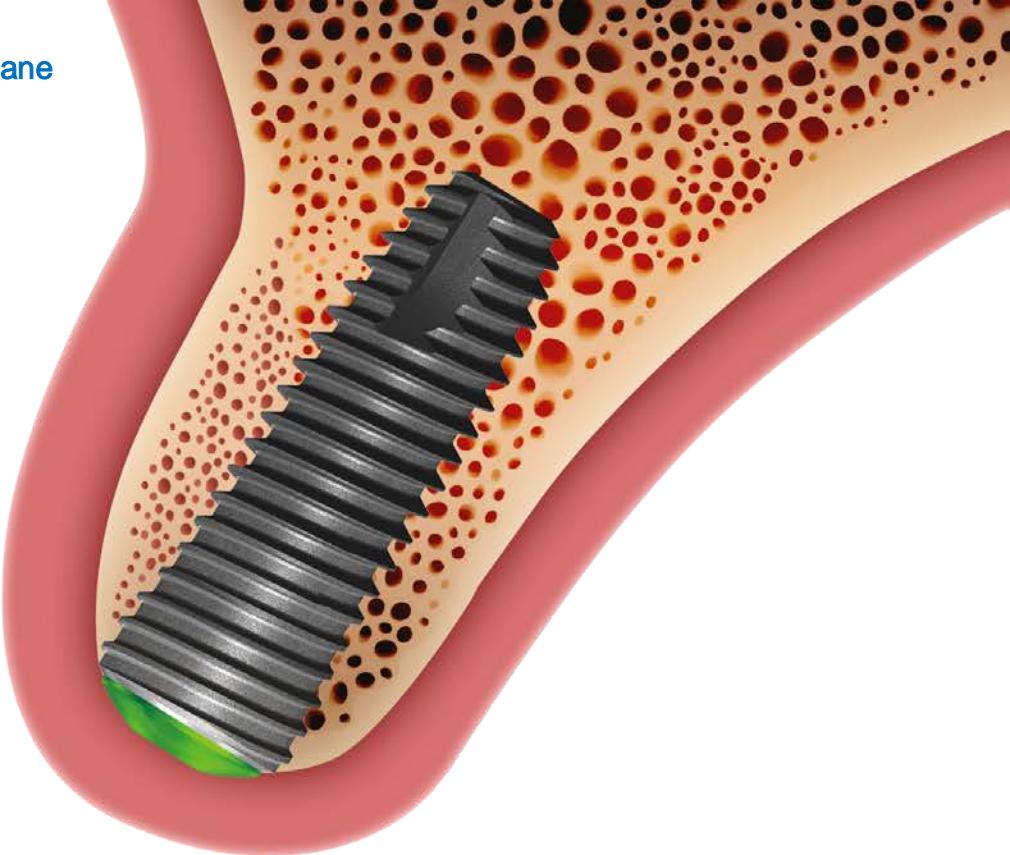

Dentium graft materials : OSTEON™II + Collagen Membrane

Healing

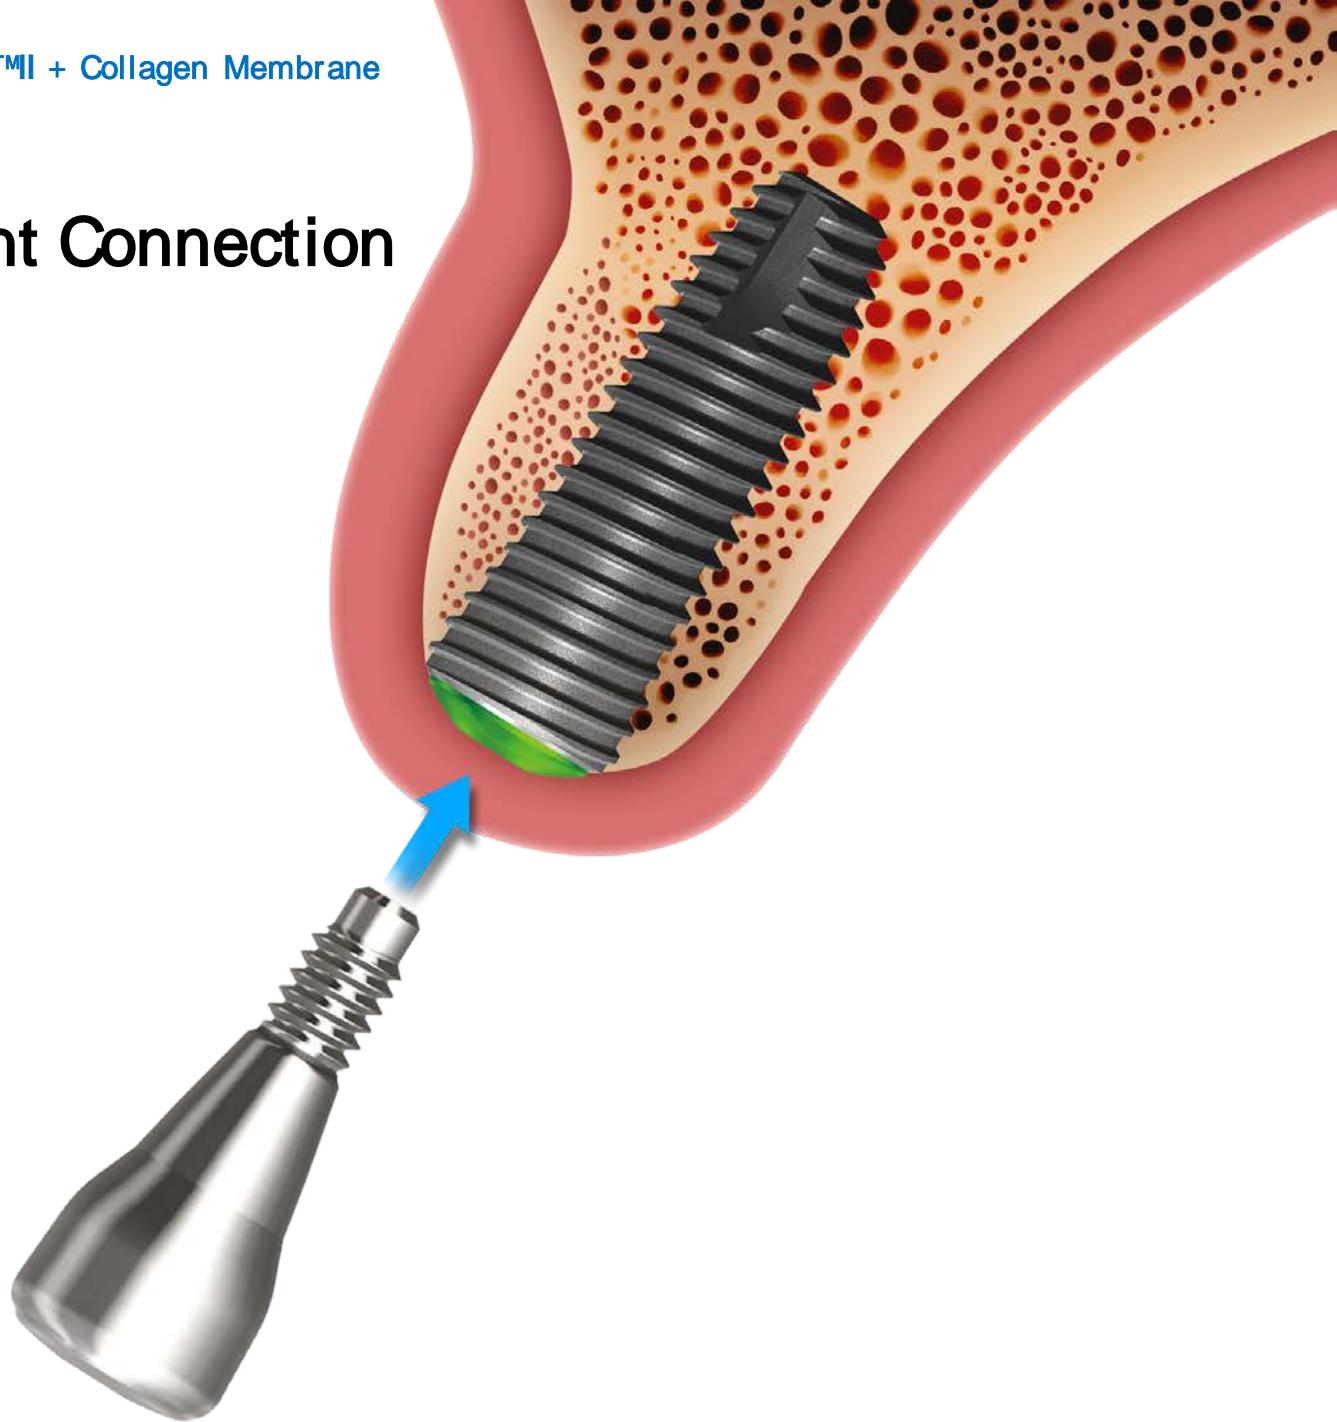

Dentium graft materials : OSTEON™II + Collagen Membrane

Healing

Dentium graft materials : OSTEON™II + Collagen Membrane

Healing Abutment Connection

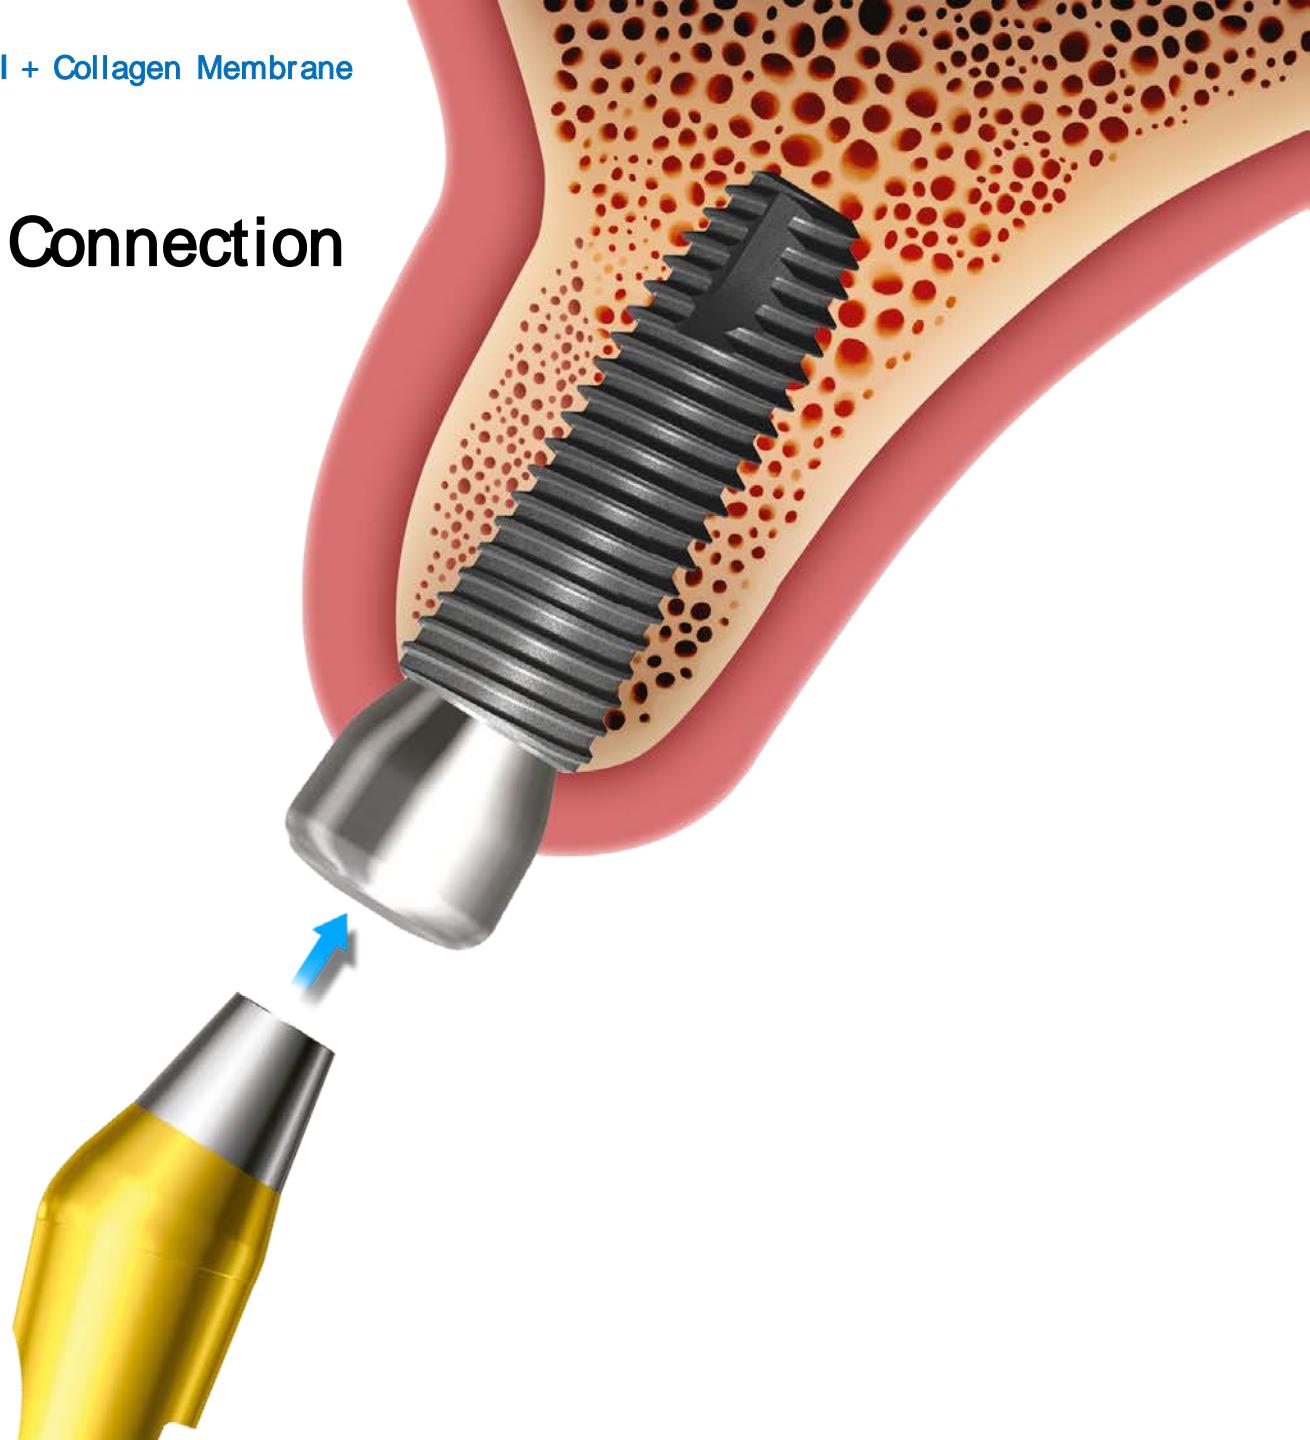

Dentium graft materials : OSTEON™II + Collagen Membrane

Healing Abutment Connection

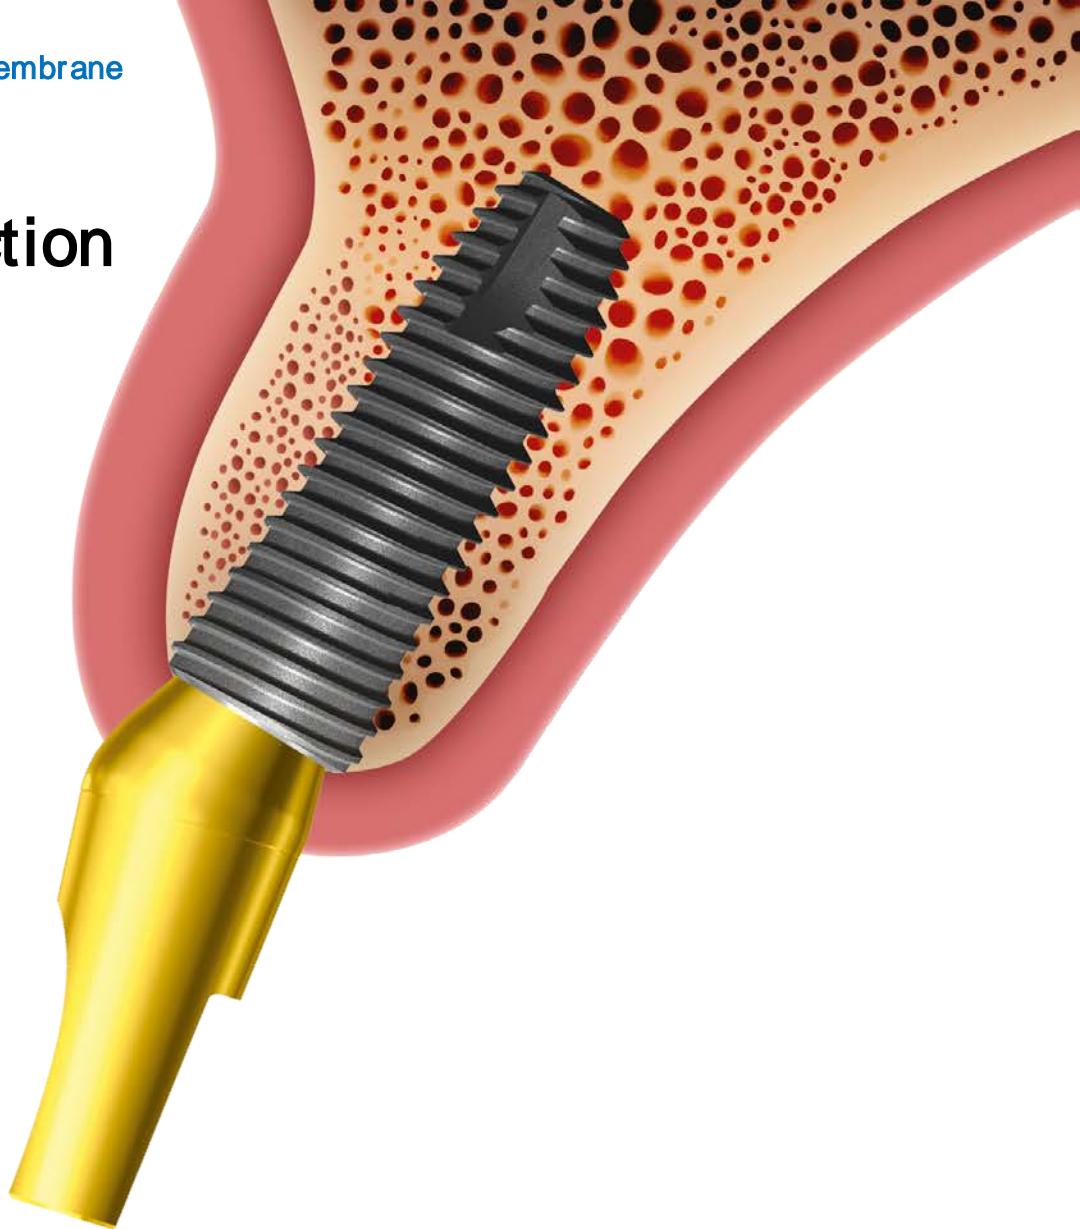

Dentium graft materials : OSTEON™II + Collagen Membrane

Milling Abutment Connection

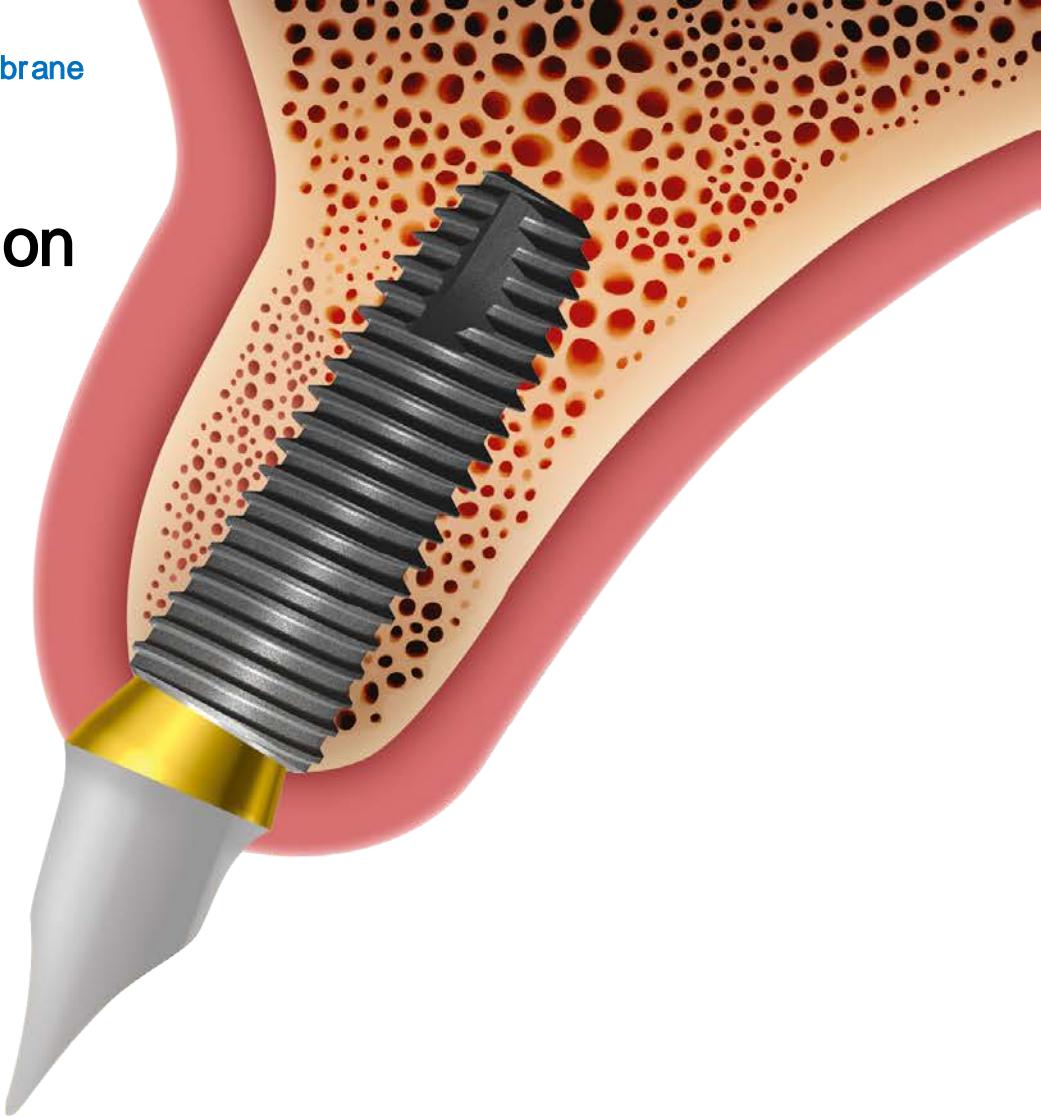

Dentium graft materials : OSTEON™II + Collagen Membrane

Milling Abutment Connection

Dentium graft materials : OSTEON™II + Collagen Membrane

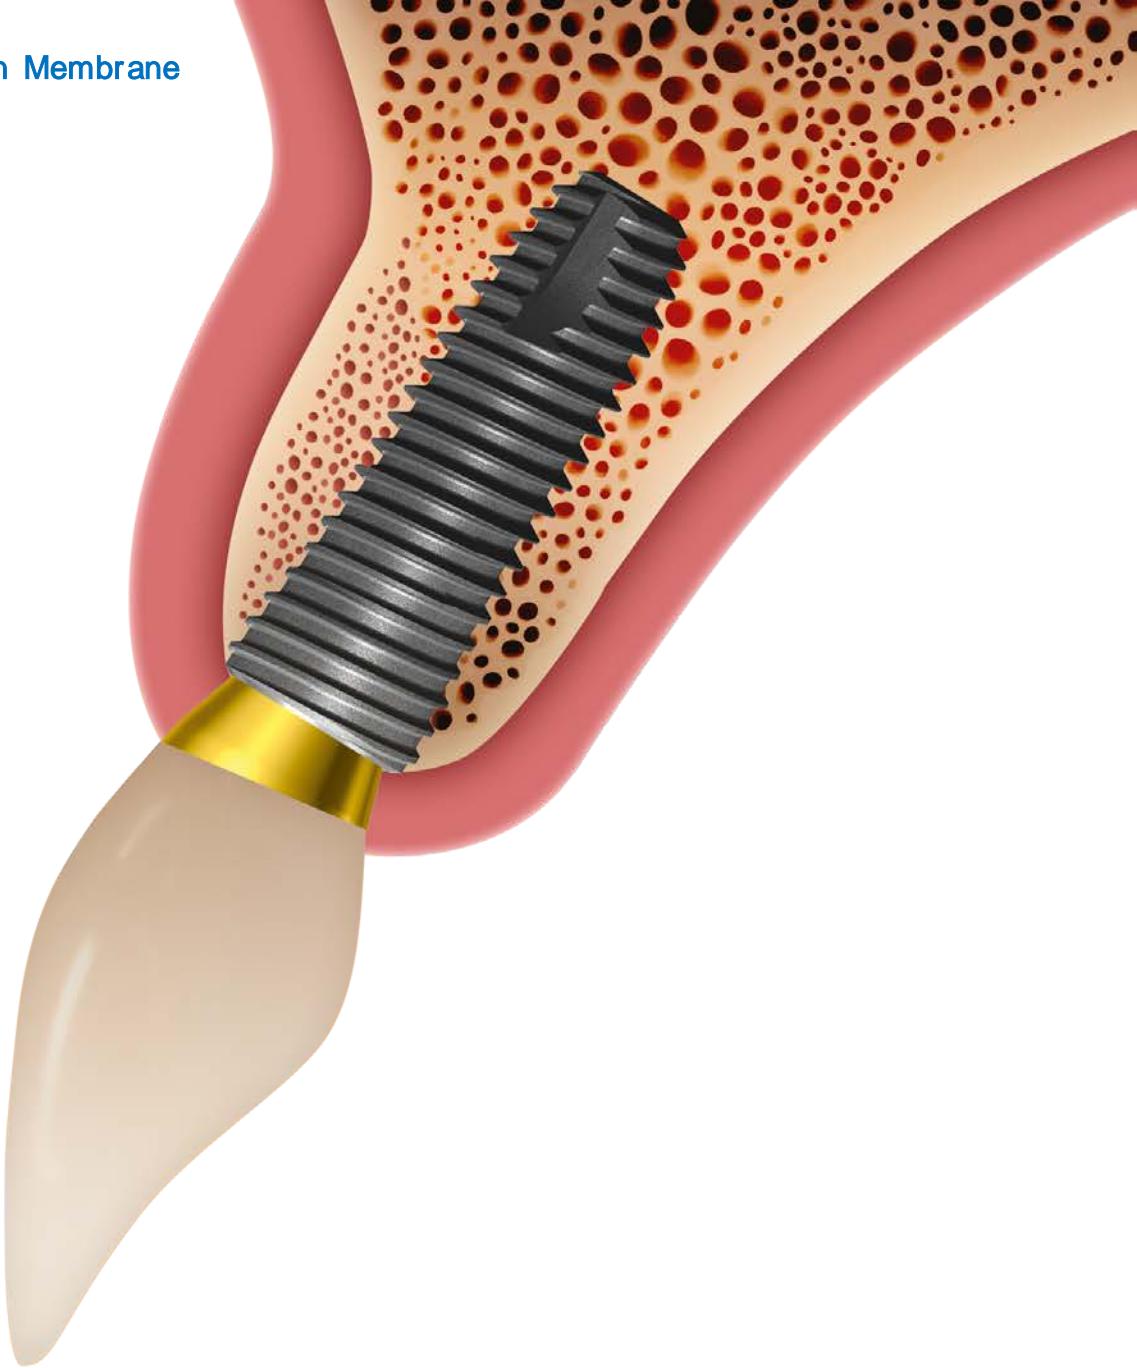

Milling Abutment Connection

Dentium graft materials : OSTEON™II + Collagen Membrane

Final prosthesis

After about 5 months

Ridge augmentation (Defect)

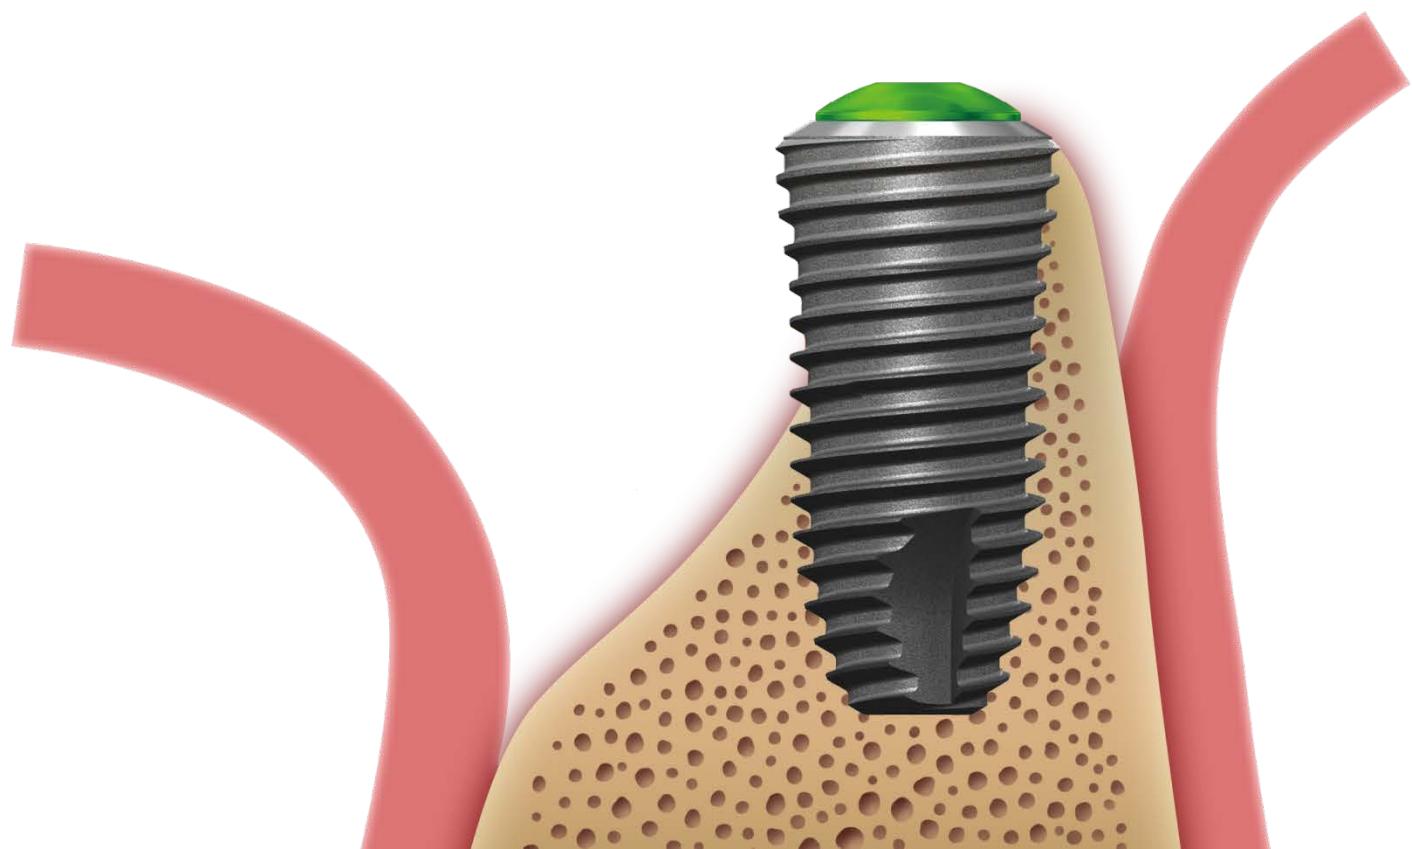

- 3 Autogenous Bone + OSTEON™ II + OSTEON™ II Collagen
[Severe Large Defect : Exposure 6~7 thread]

Dentium graft materials : Autogenous Bone + OSTEON™II + OSTEON™II Collagen

Fixture Implantation

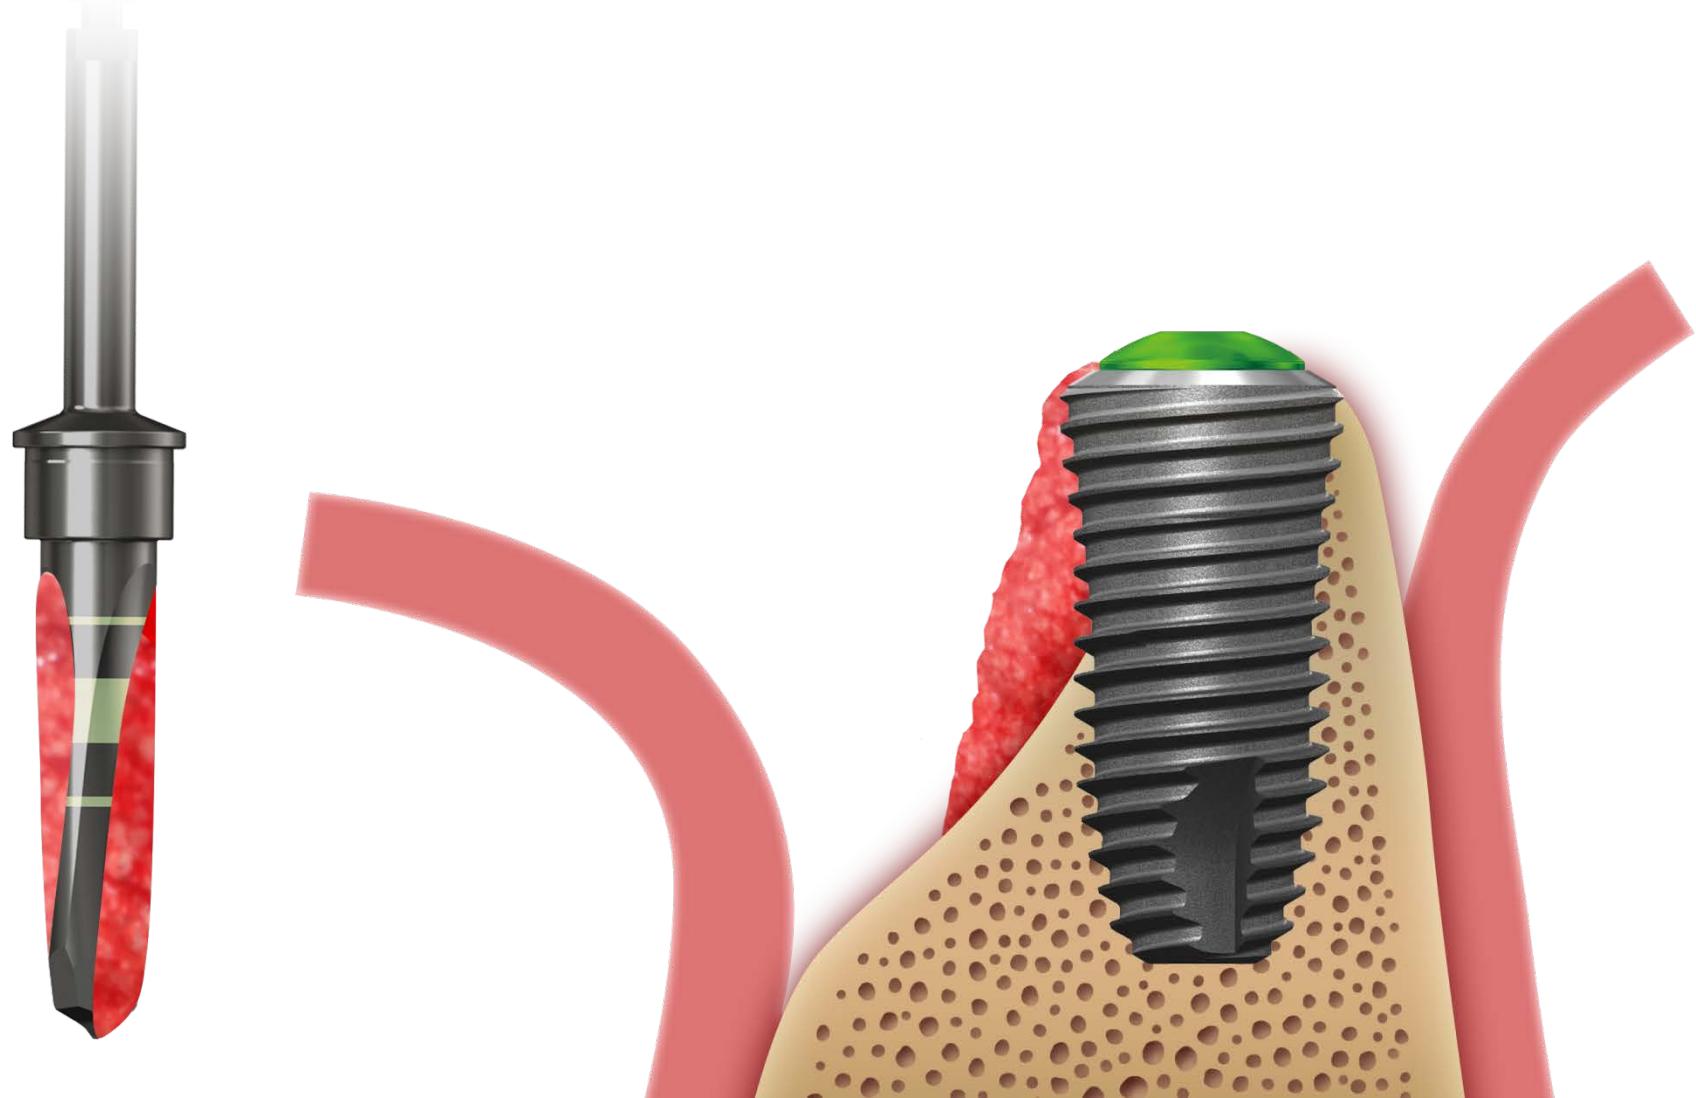

SuperLine : FX4510

Dentium graft materials : Autogenous Bone + OSTEON™II + OSTEON™II Collagen

Bone Graft with Autogenous Bone

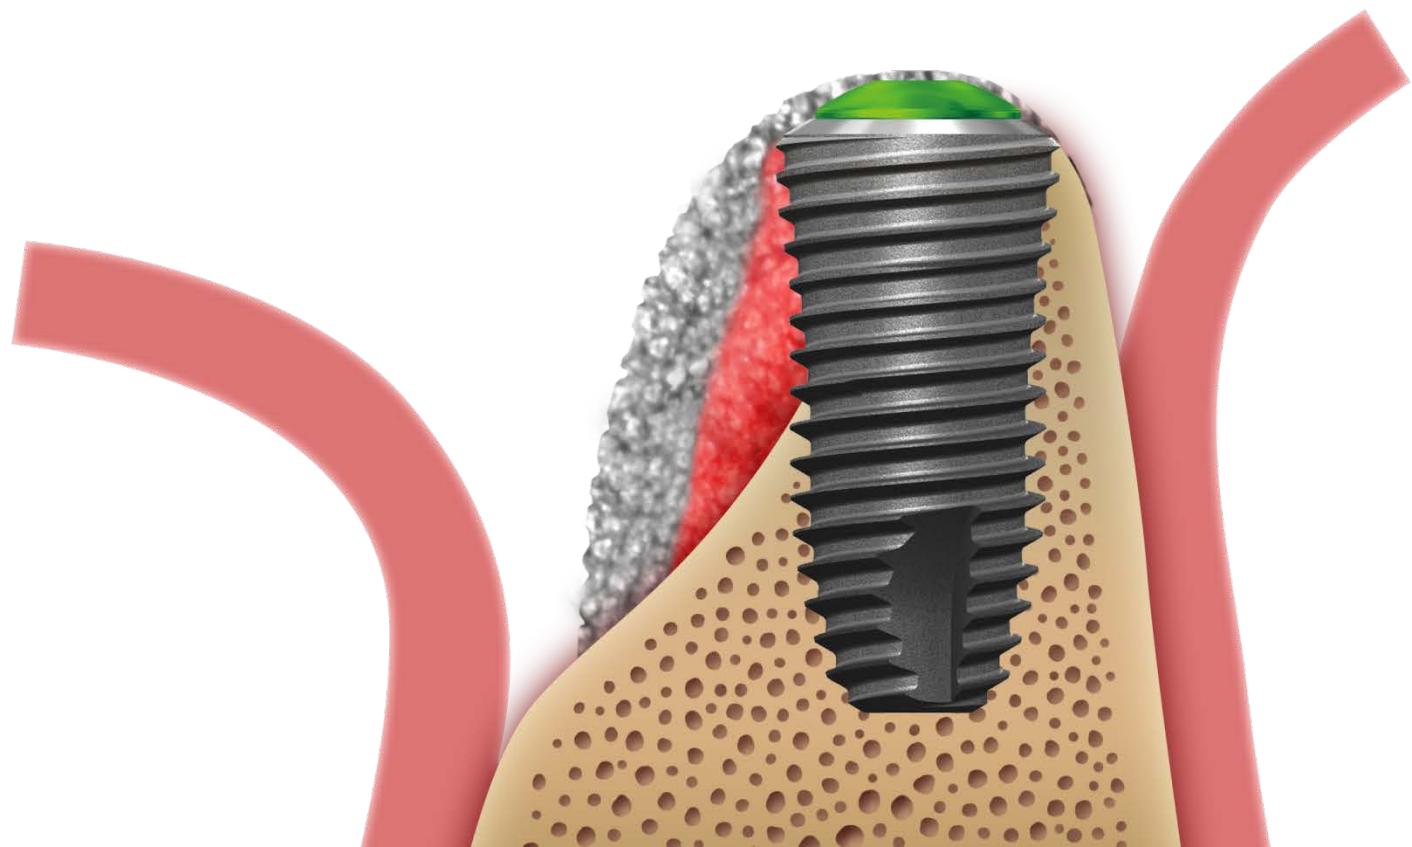

Using Harvest Drill

Dentium graft materials : Autogenous Bone + OSTEON™II + OSTEON™II Collagen

Application of graft material

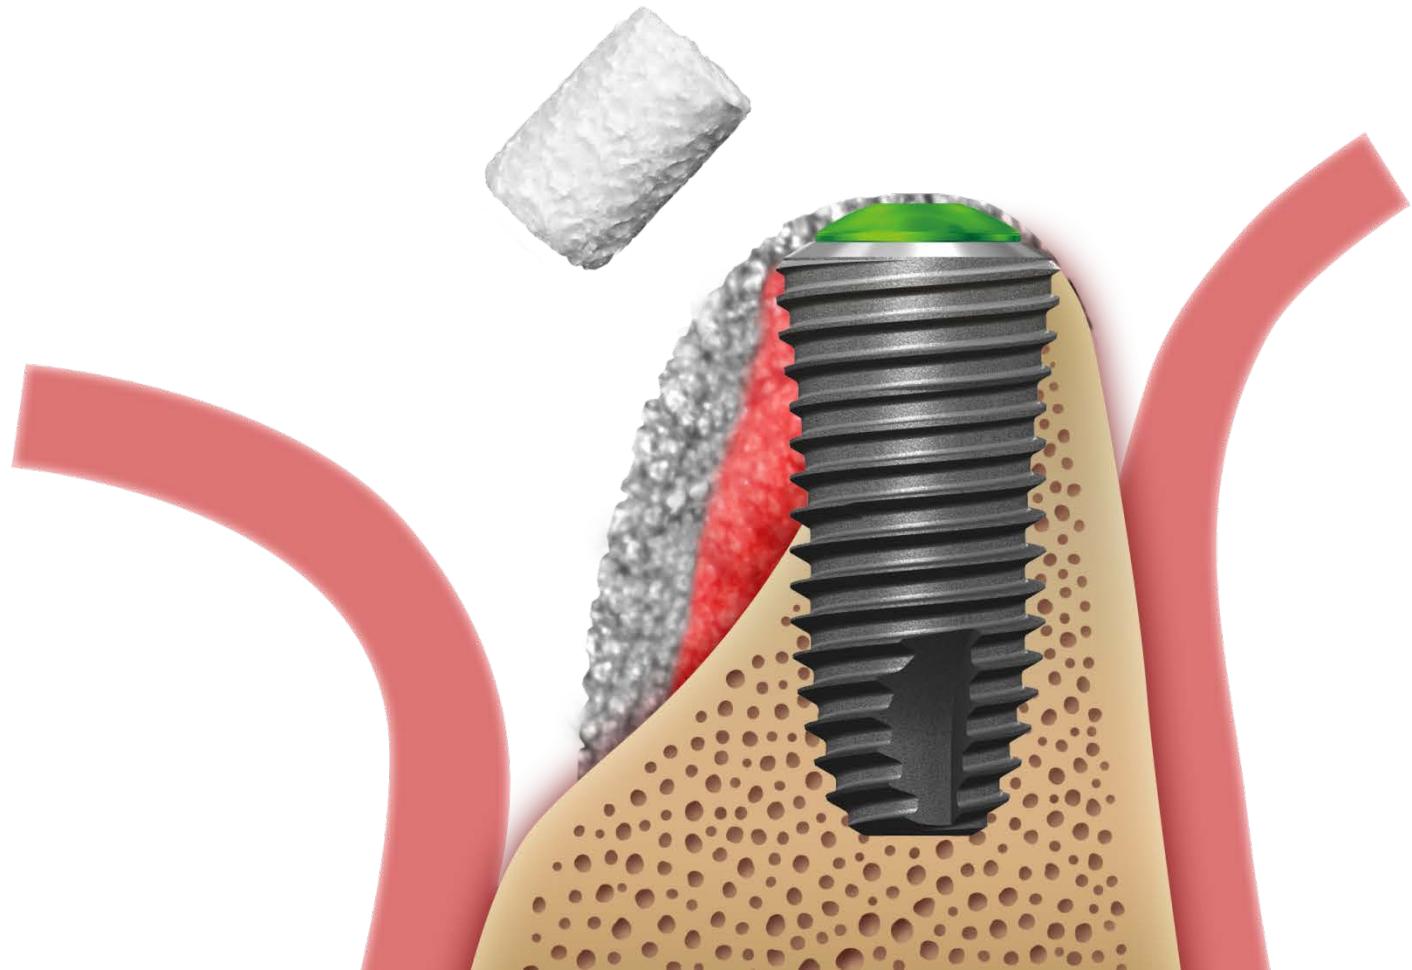

OSTEON™II

Dentium graft materials : Autogenous Bone + OSTEON™II + OSTEON™II Collagen

Application of graft material

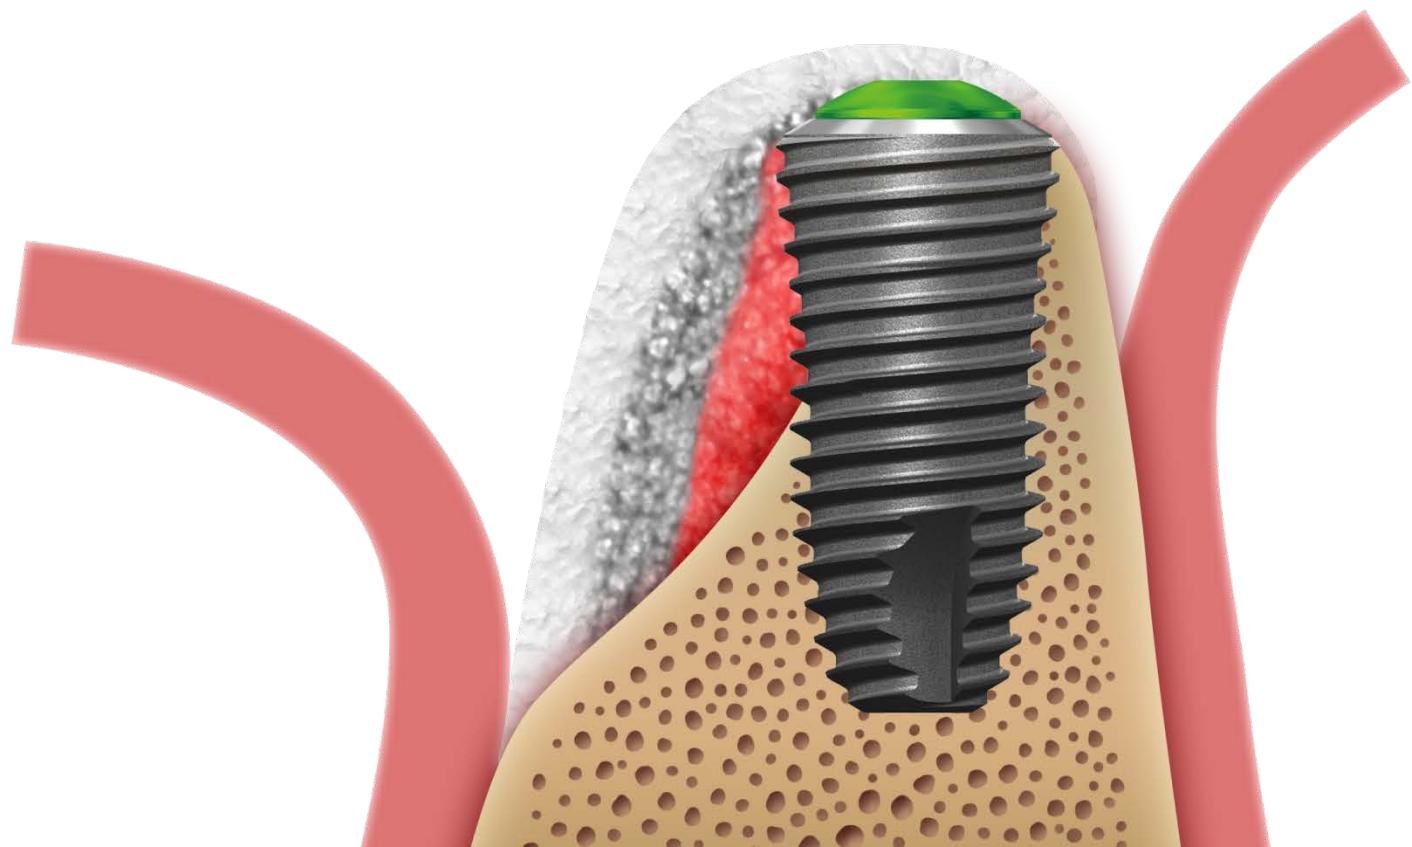

OSTEON™II Collagen

Dentium graft materials : Autogenous Bone + OSTEON™II + OSTEON™II Collagen

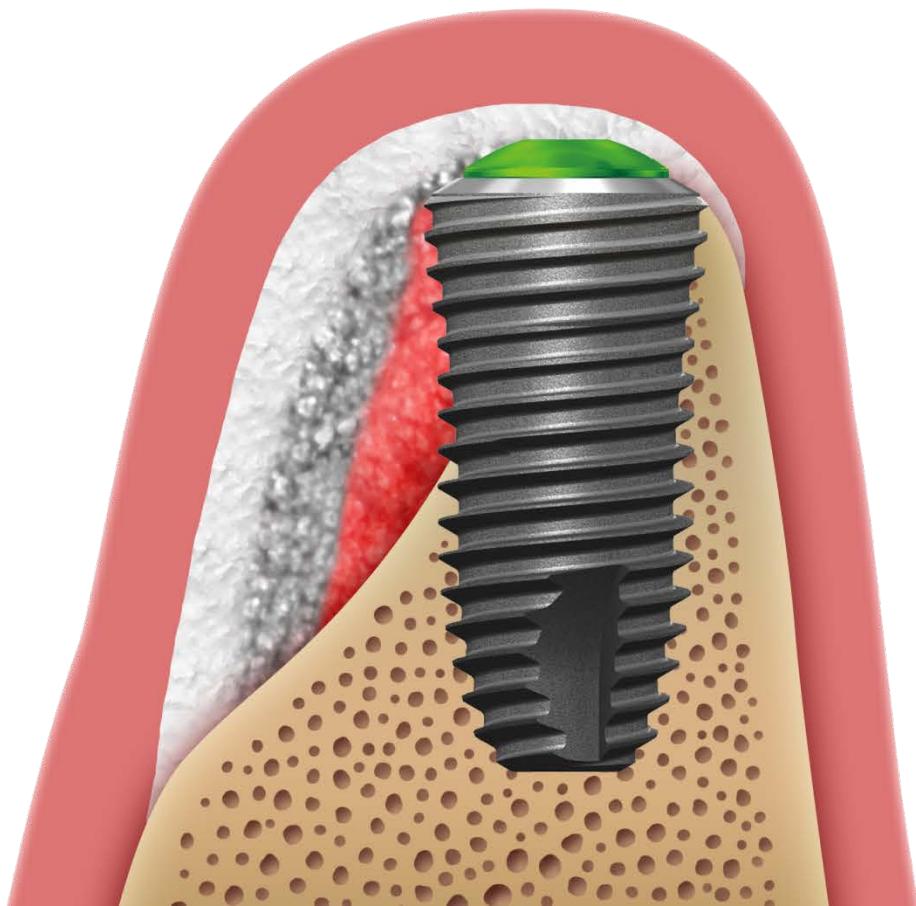

Application of graft material

OSTEON™II Collagen

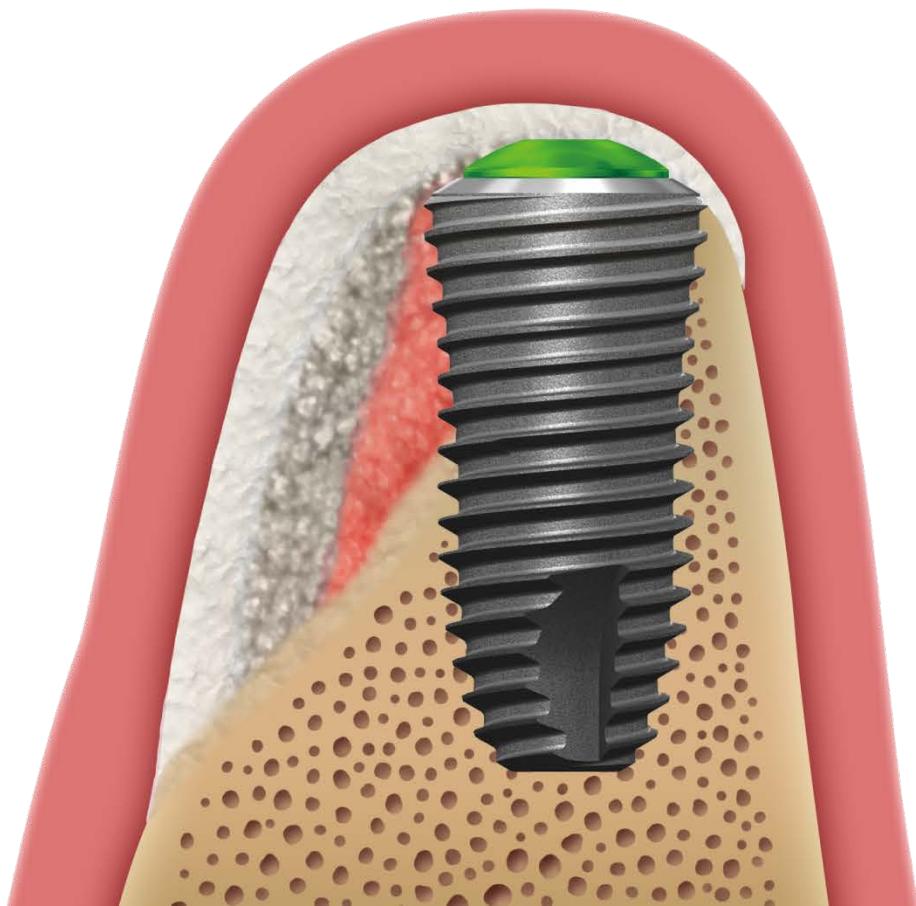

Dentium graft materials : Autogenous Bone + OSTEON™II + OSTEON™II Collagen

Healing

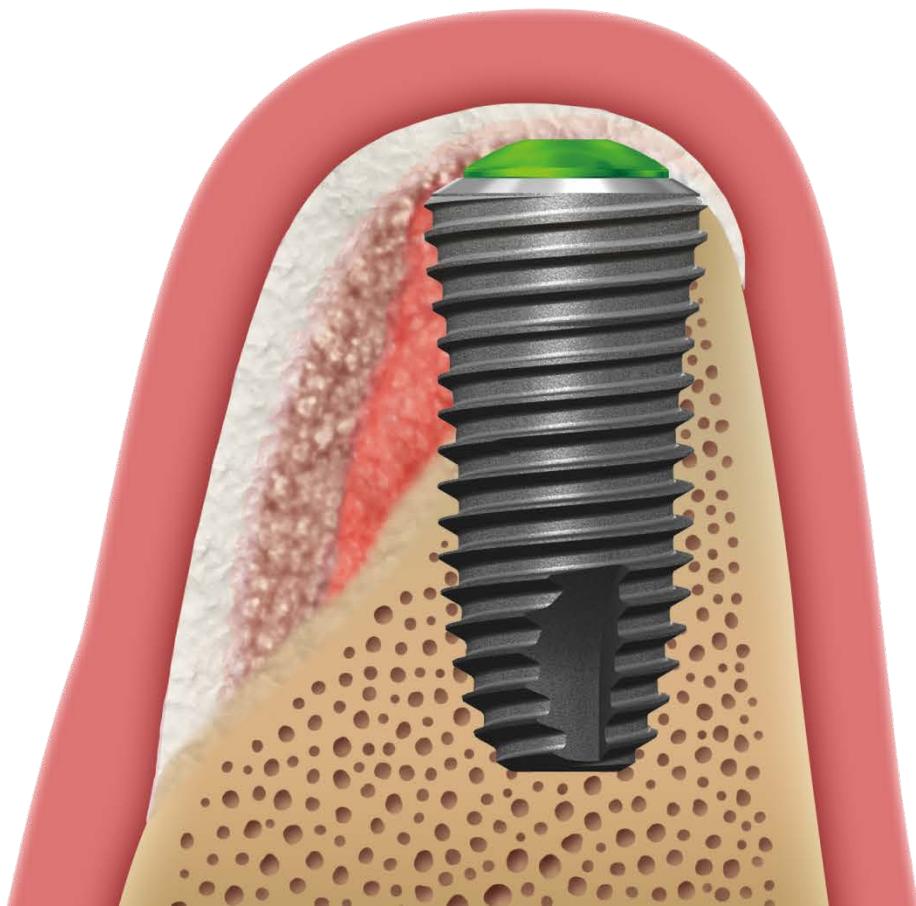

Dentium graft materials : Autogenous Bone + OSTEON™II + OSTEON™II Collagen

Healing

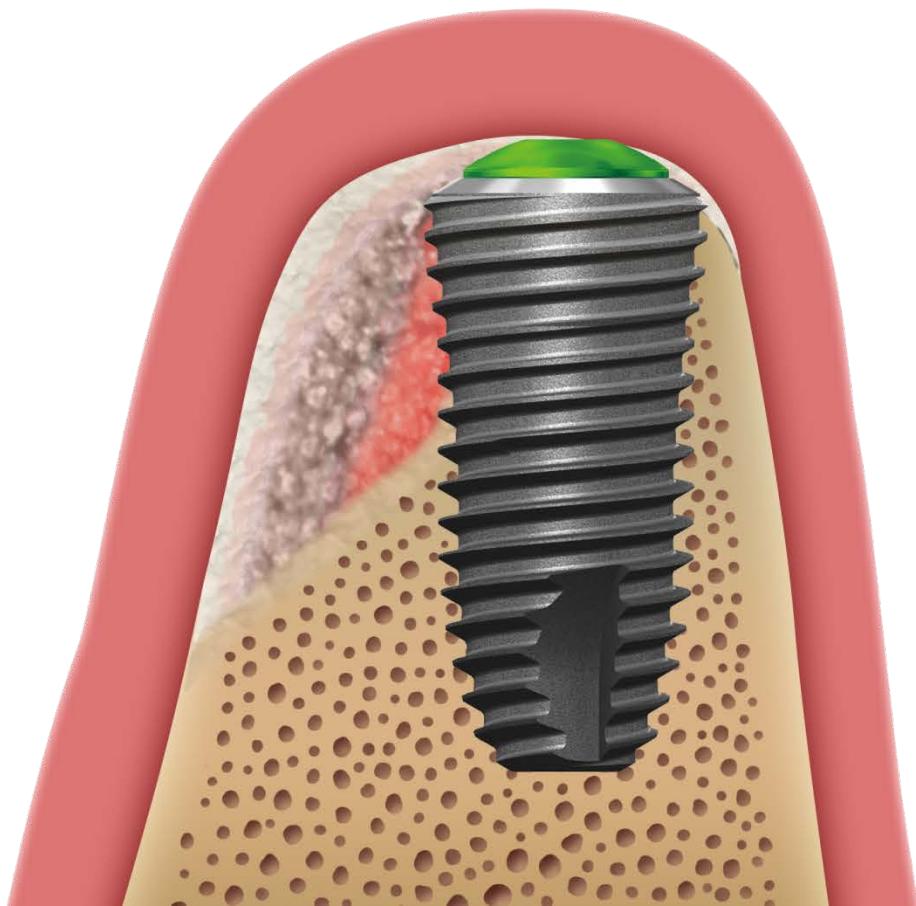

Dentium graft materials : Autogenous Bone + OSTEON™II + OSTEON™II Collagen

Healing

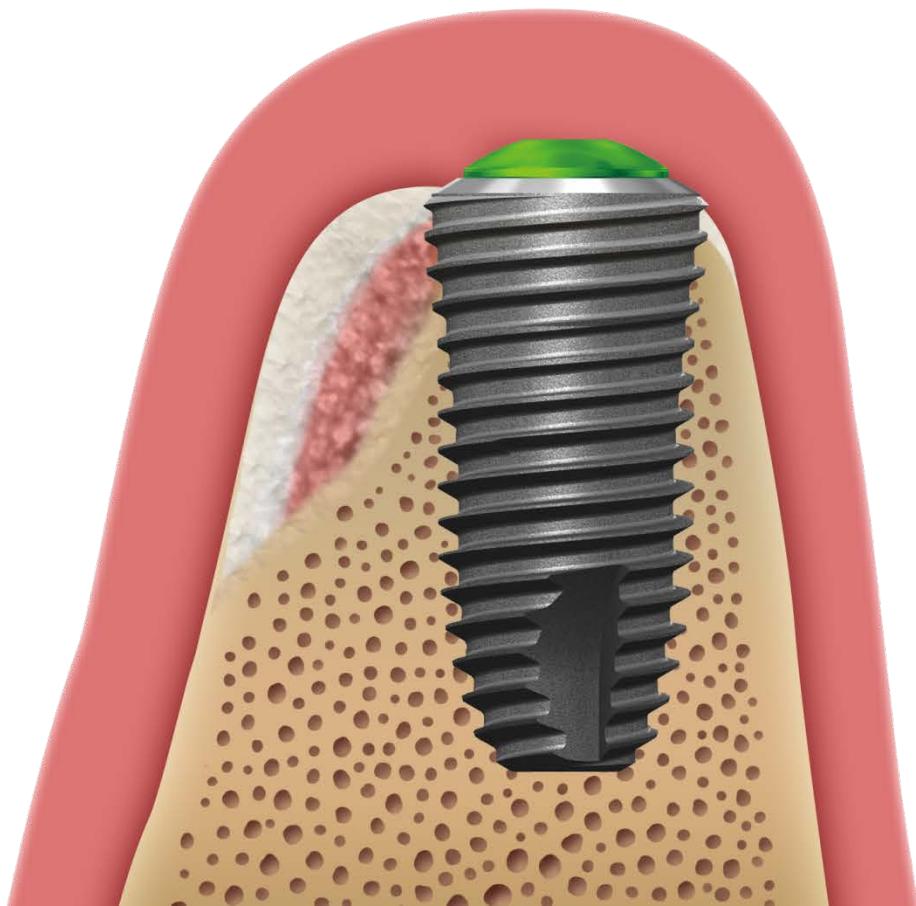

Dentium graft materials : Autogenous Bone + OSTEON™II + OSTEON™II Collagen

Healing

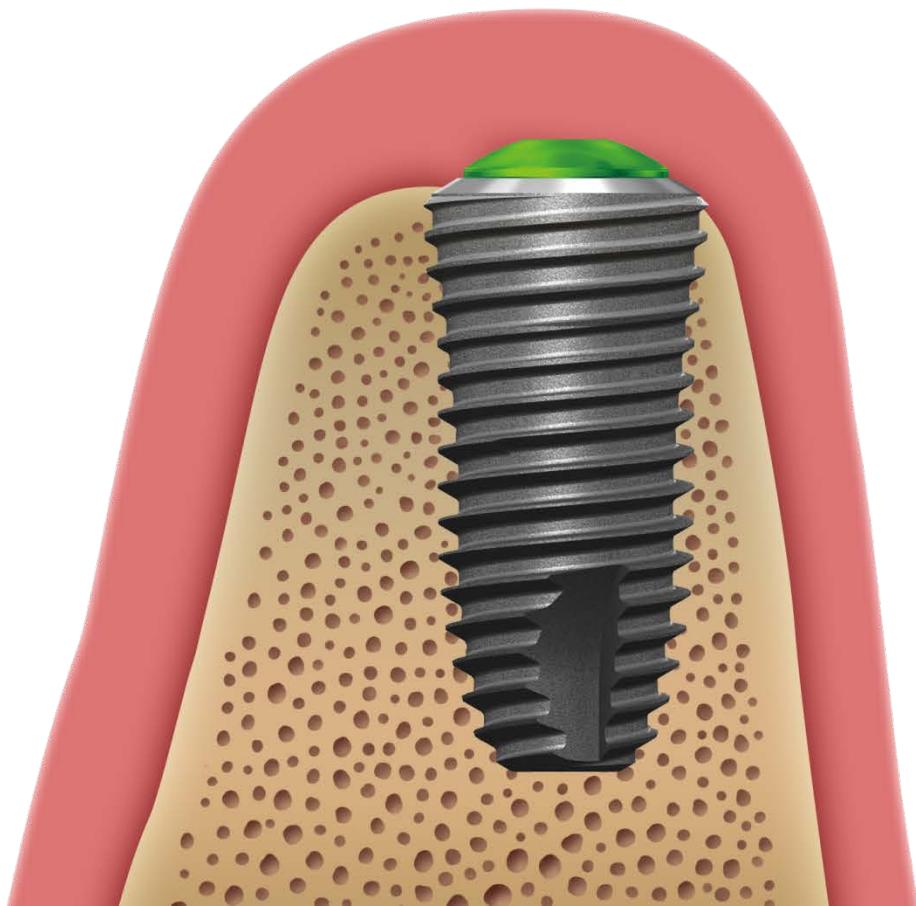

Dentium graft materials : Autogenous Bone + OSTEON™II + OSTEON™II Collagen

Healing

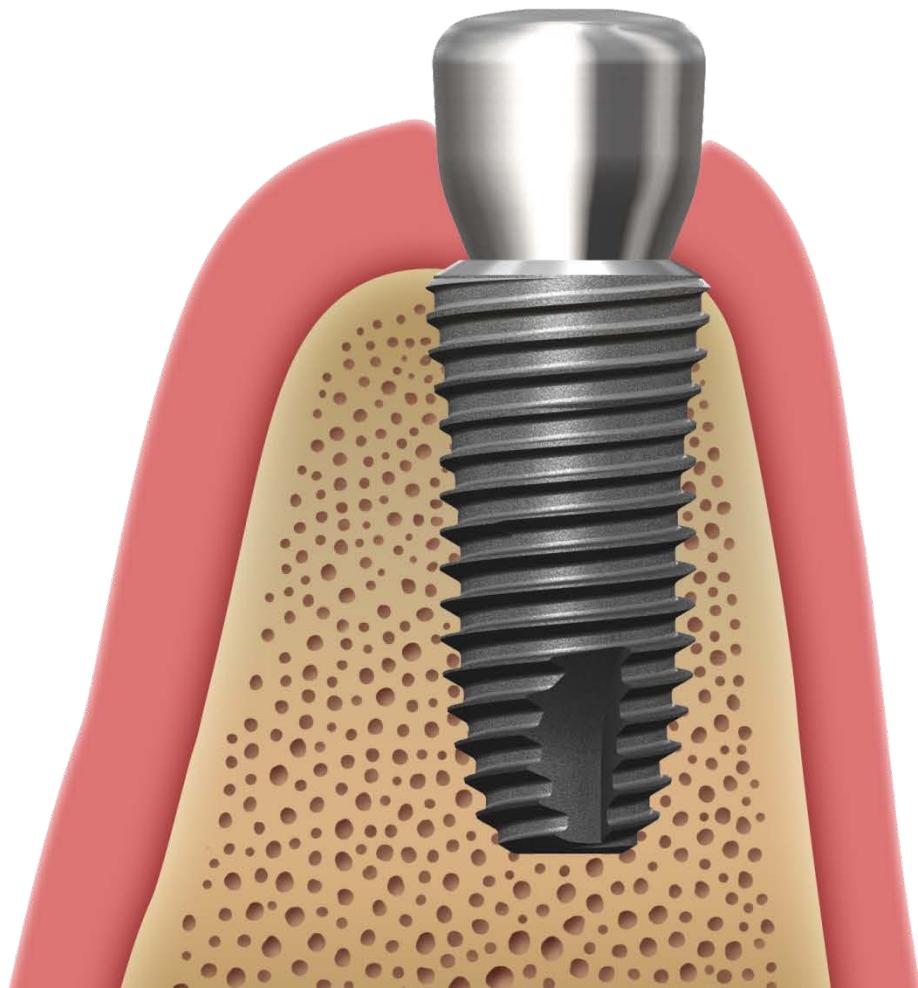

Dentium graft materials : Autogenous Bone + OSTEON™II + OSTEON™II Collagen

Healing

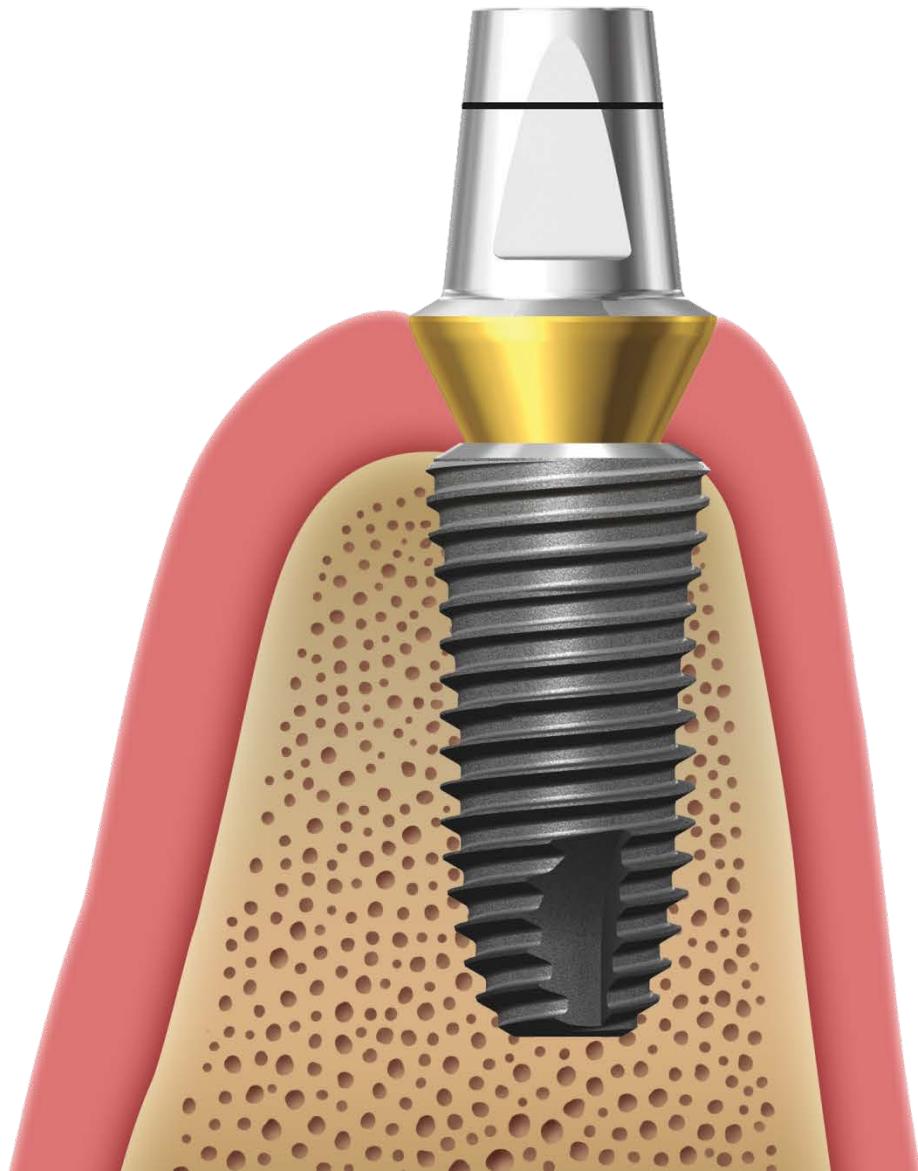

Dentium graft materials : Autogenous Bone + OSTEON™II + OSTEON™II Collagen

Healing Abutment Connection

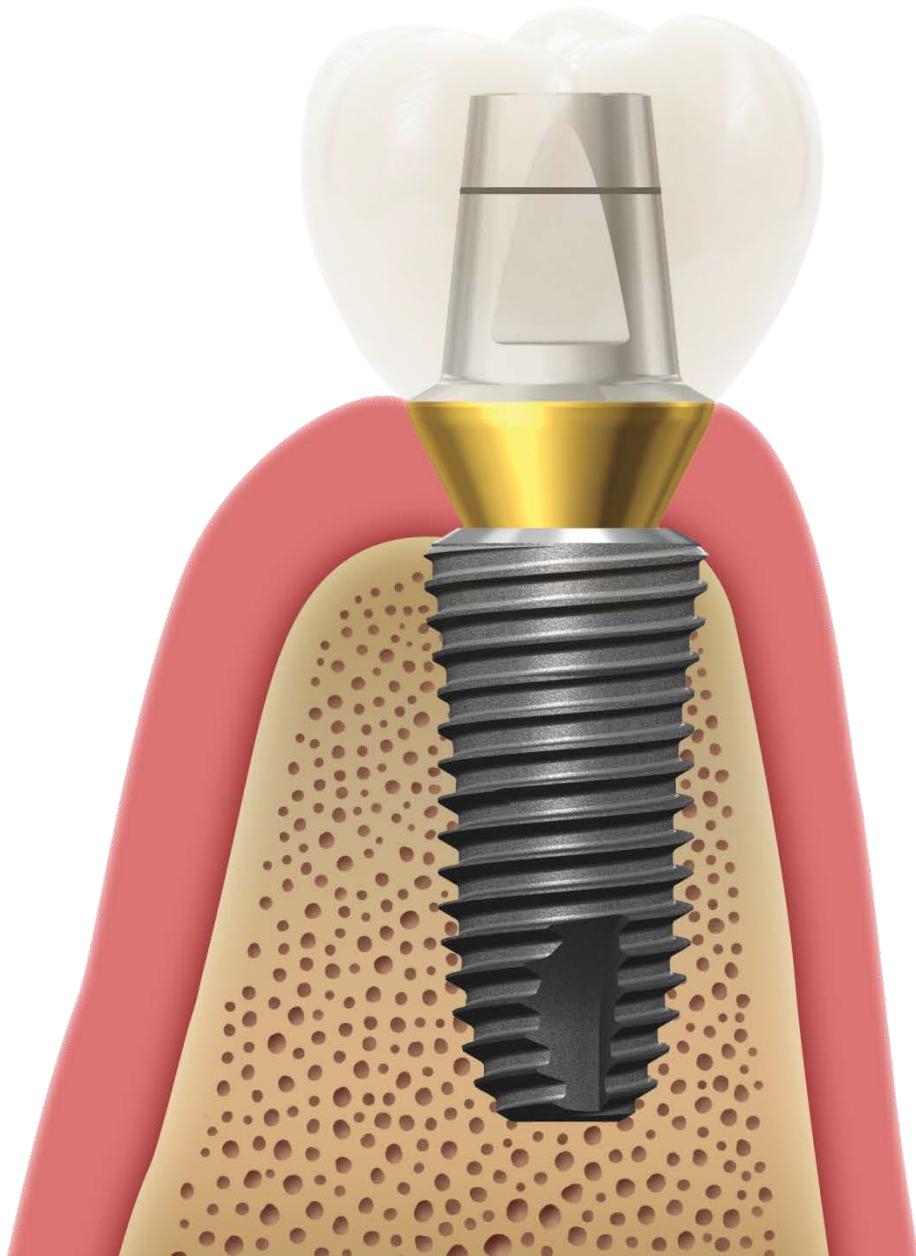

Dentium graft materials : Autogenous Bone + OSTEON™II + OSTEON™II Collagen

Dual Abutment Connection

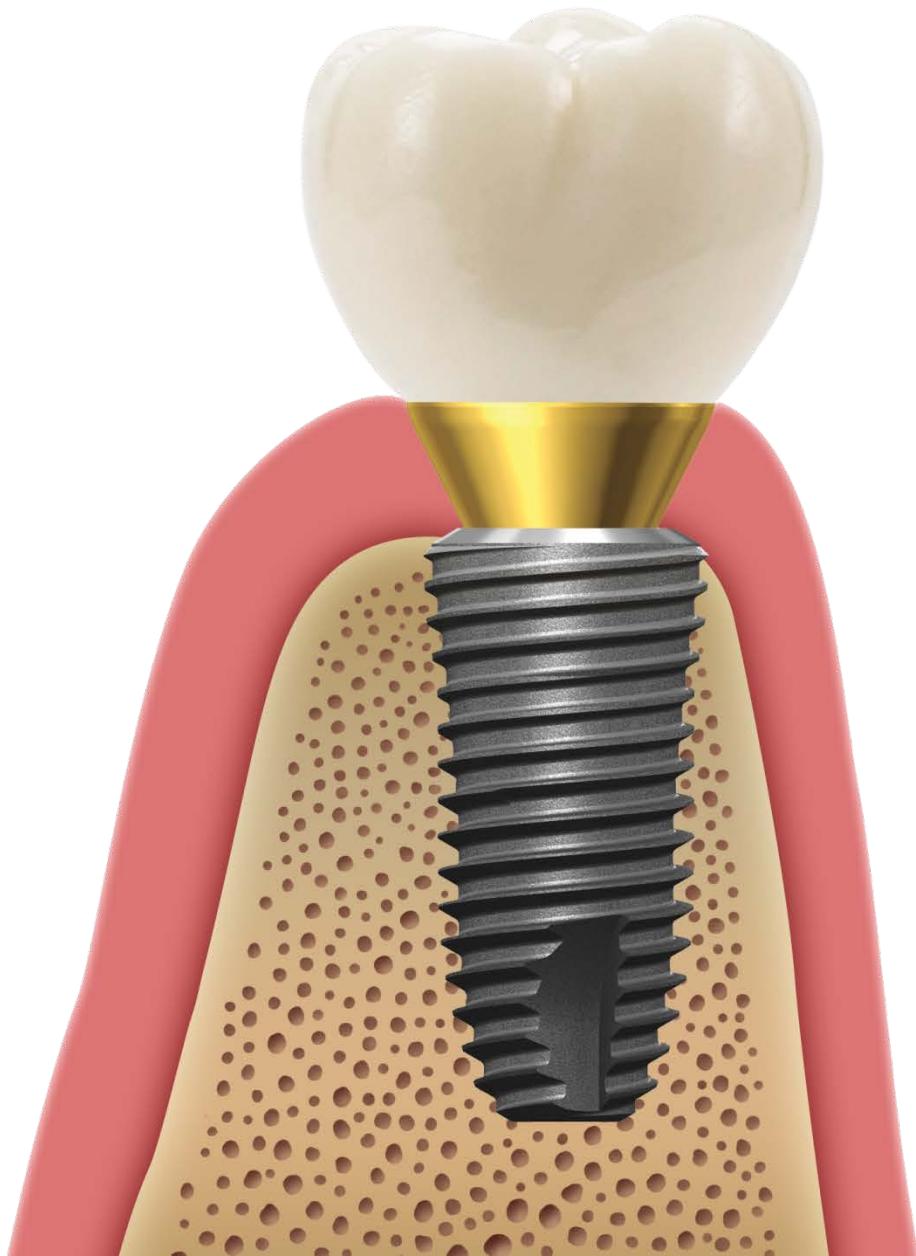

Dentium graft materials : Autogenous Bone + OSTEON™II + OSTEON™II Collagen

Final prosthetics

Dentium graft materials : Autogenous Bone + OSTEON™II + OSTEON™II Collagen

Final prosthetics

Ridge augmentation (Defect)

4 OSTEON™ II Collagen
[None/Small Defect]

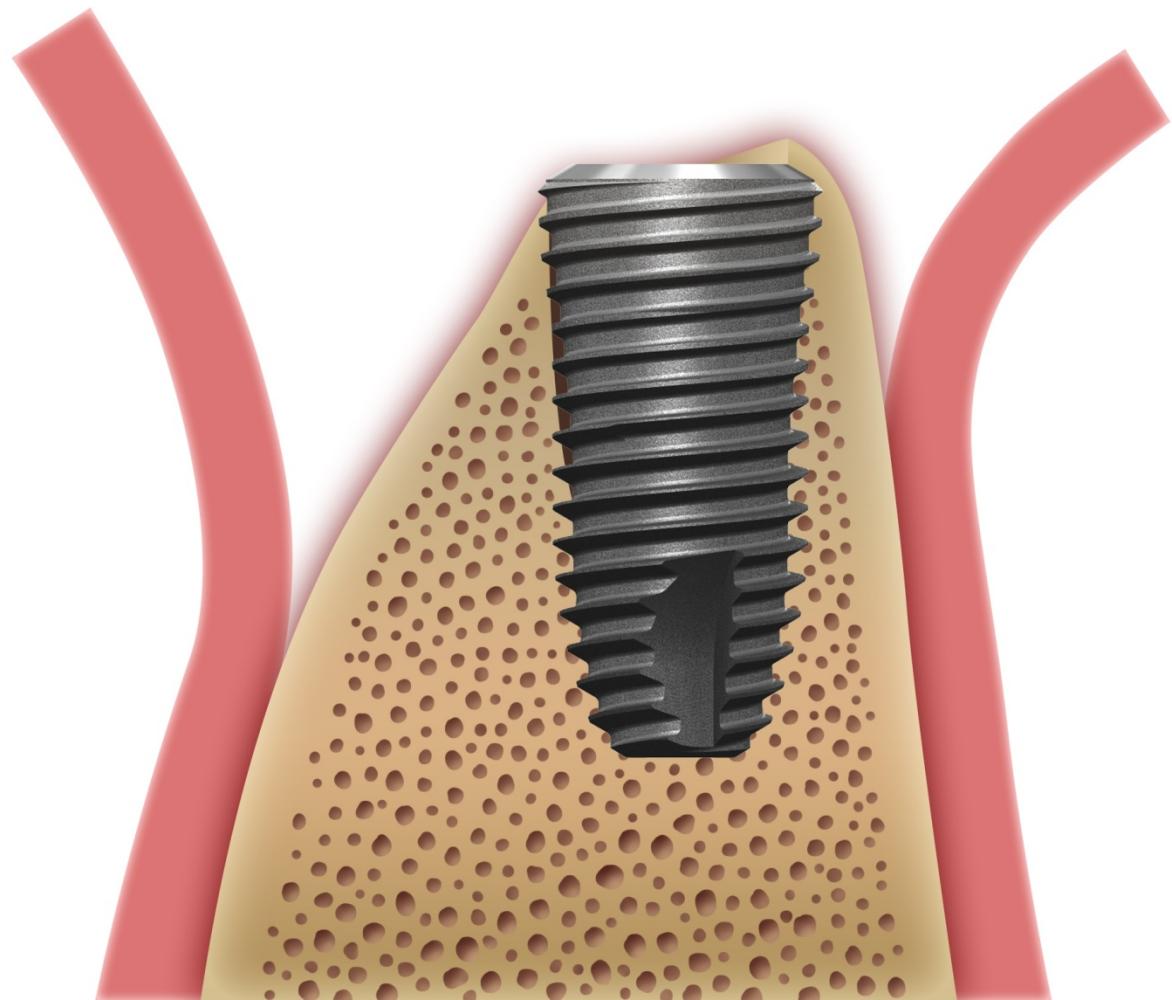

Dentium graft materials : OSTEON™ II Collagen

Application of graft material

OSTEON™ II Collagen

SuperLine : FX4510

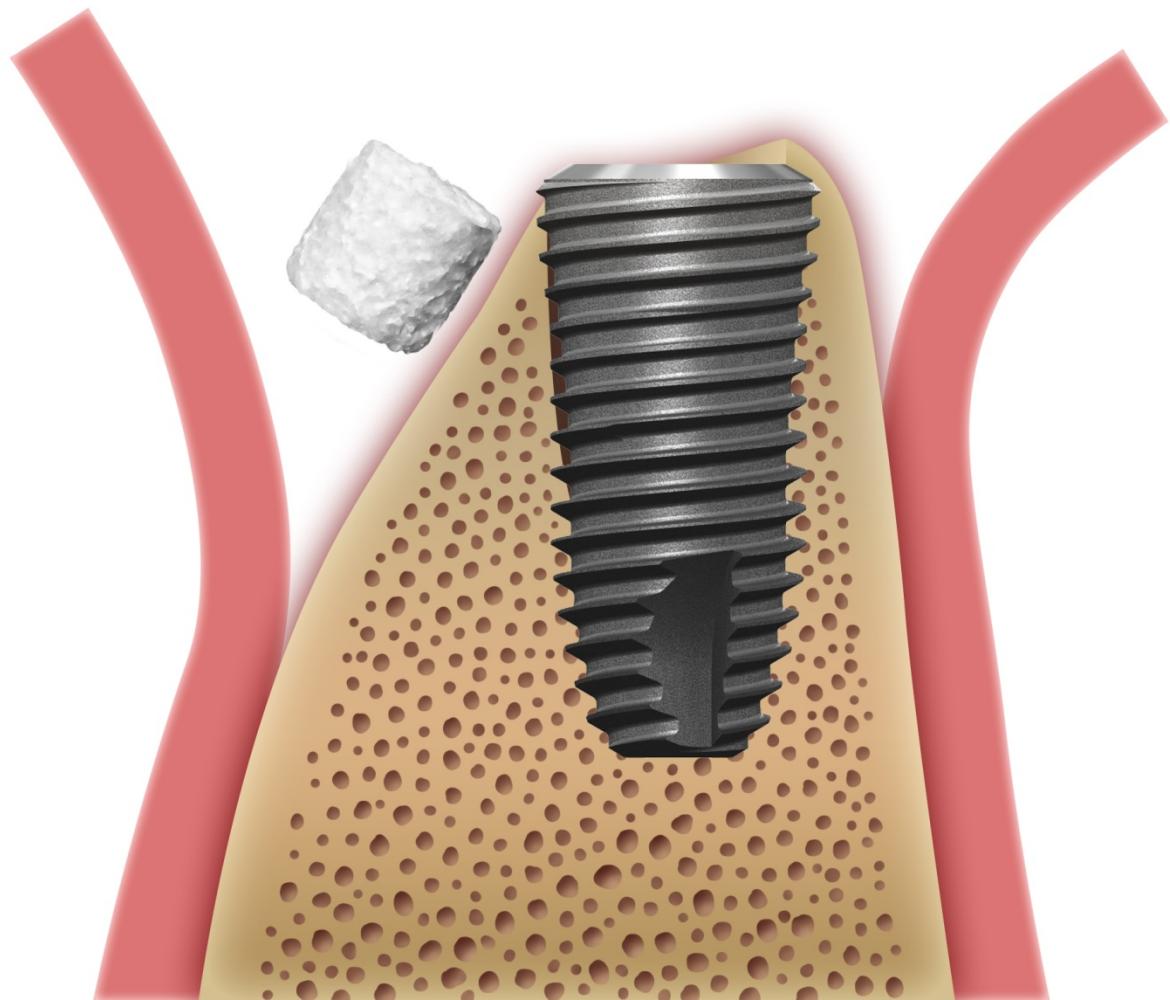

Dentium graft materials : OSTEON™II Collagen

Application of graft material

OSTEON™II Collagen

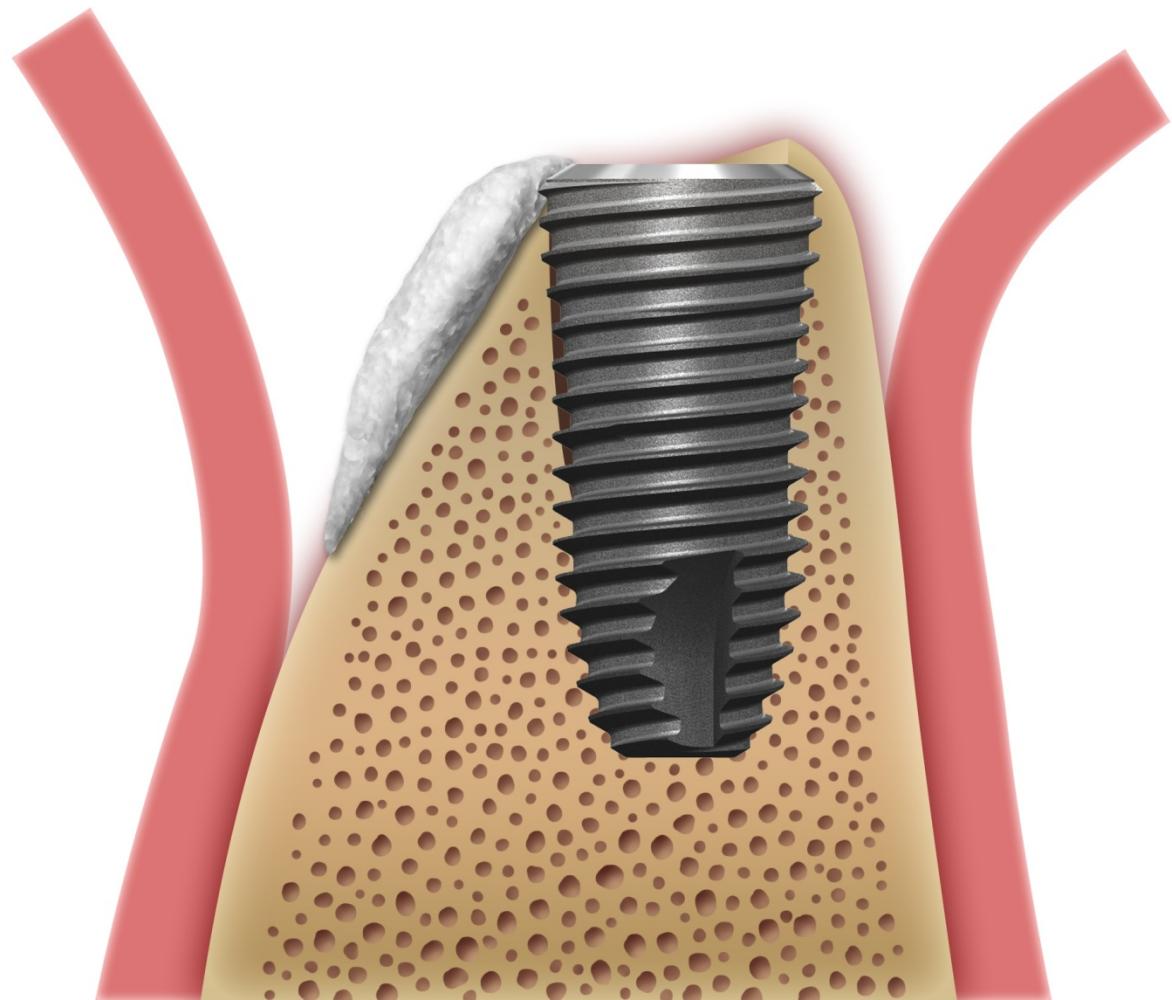

SuperLine : FX4510SE

Dentium graft materials : OSTEON™II Collagen

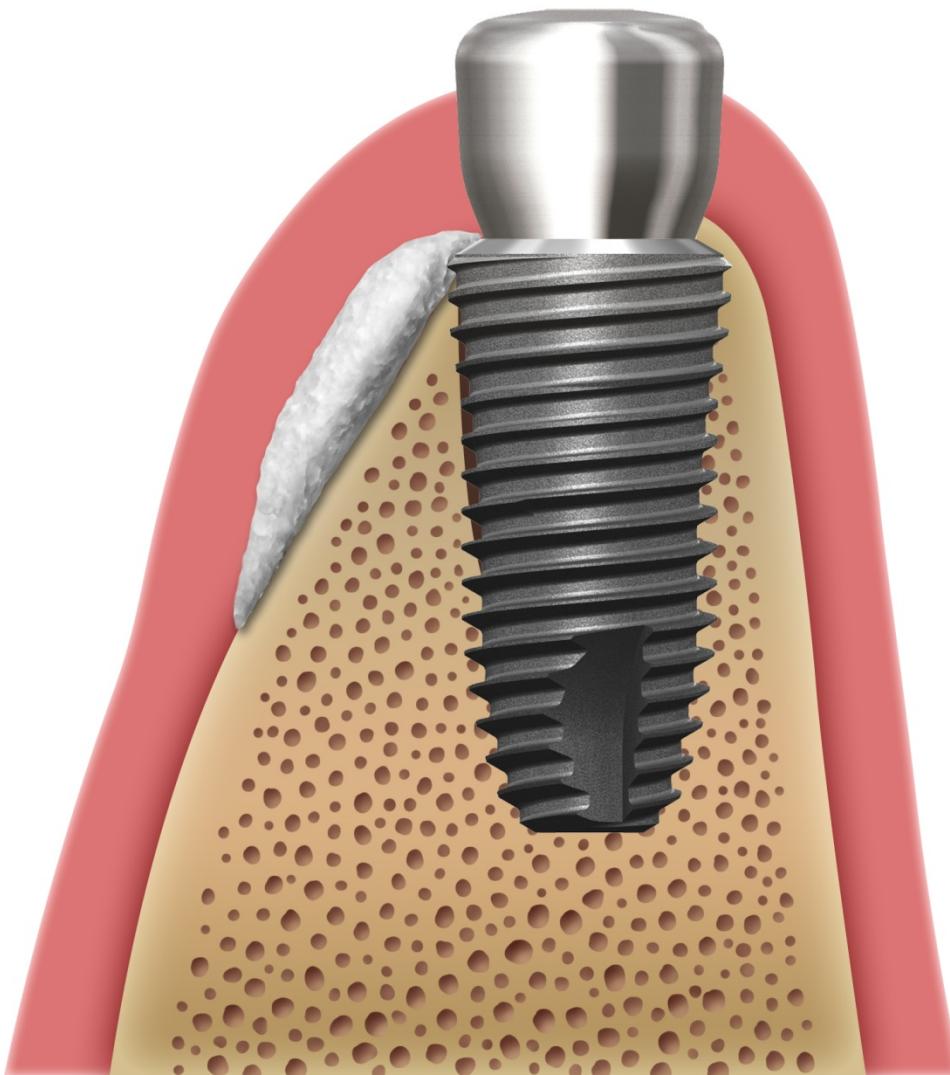

Application of graft material

OSTEON™II Collagen

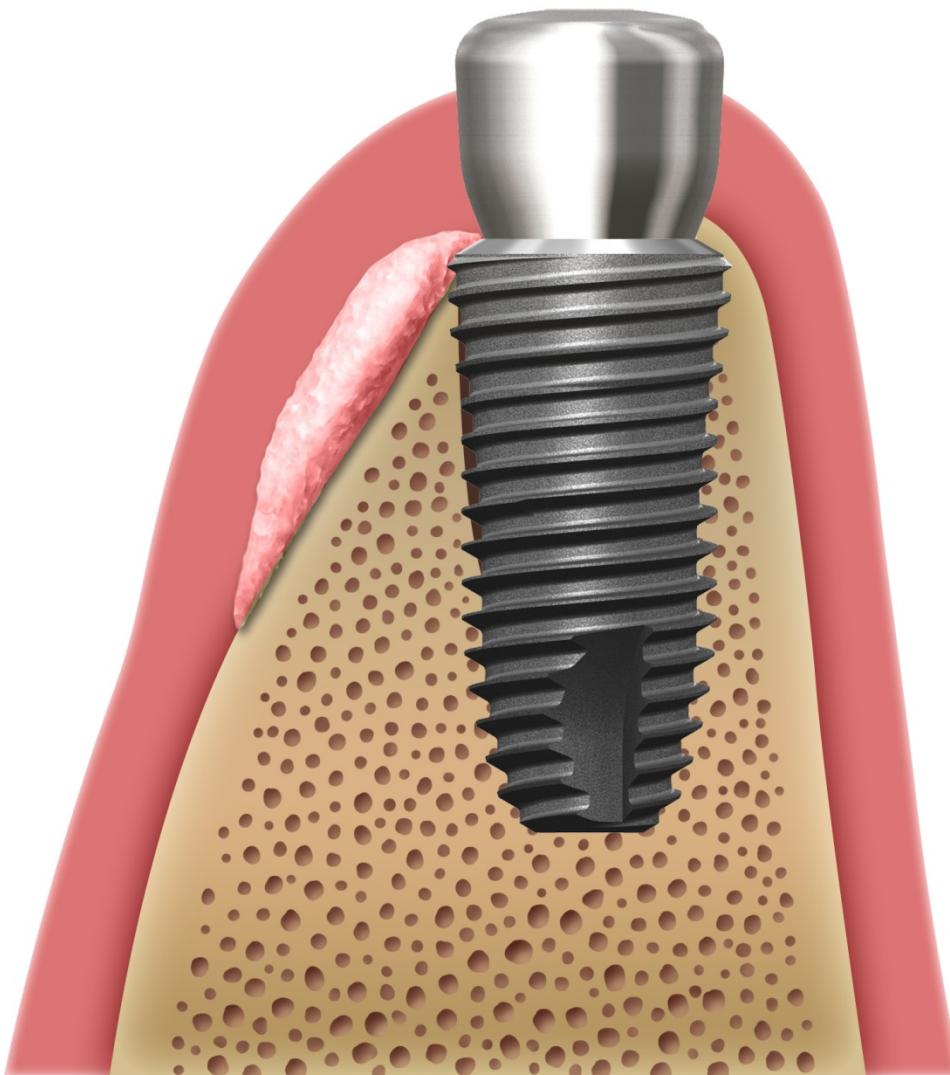

Dentium graft materials : OSTEON™ II Collagen

Suture

Dentium graft materials : OSTEON™ II Collagen

Labial contour volume up

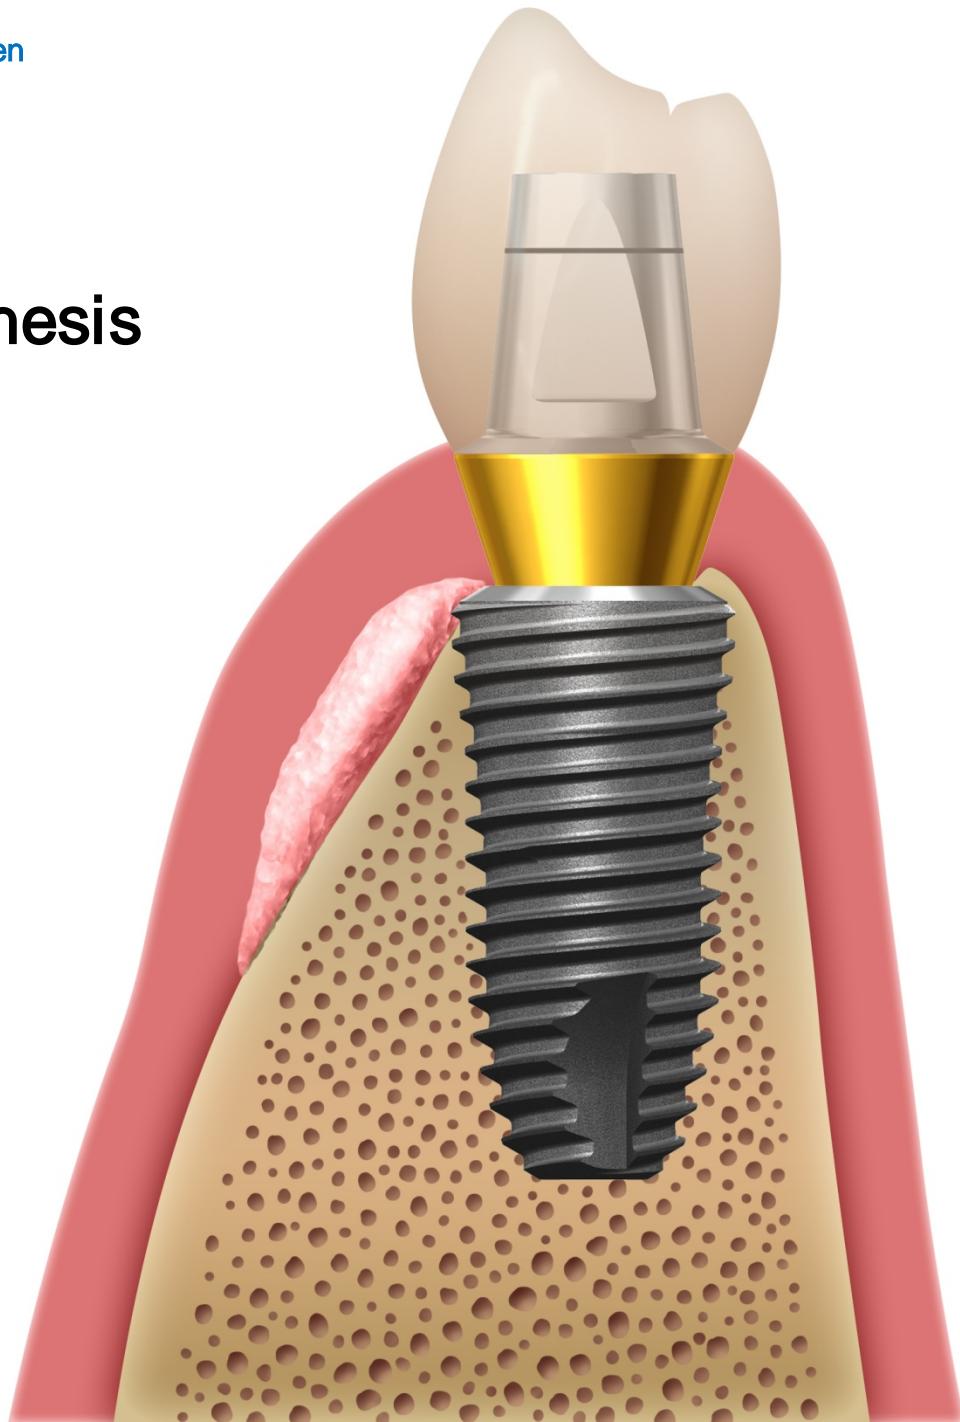

Dentium graft materials : OSTEON™ II Collagen

Gingival contouring with temporary prosthesis

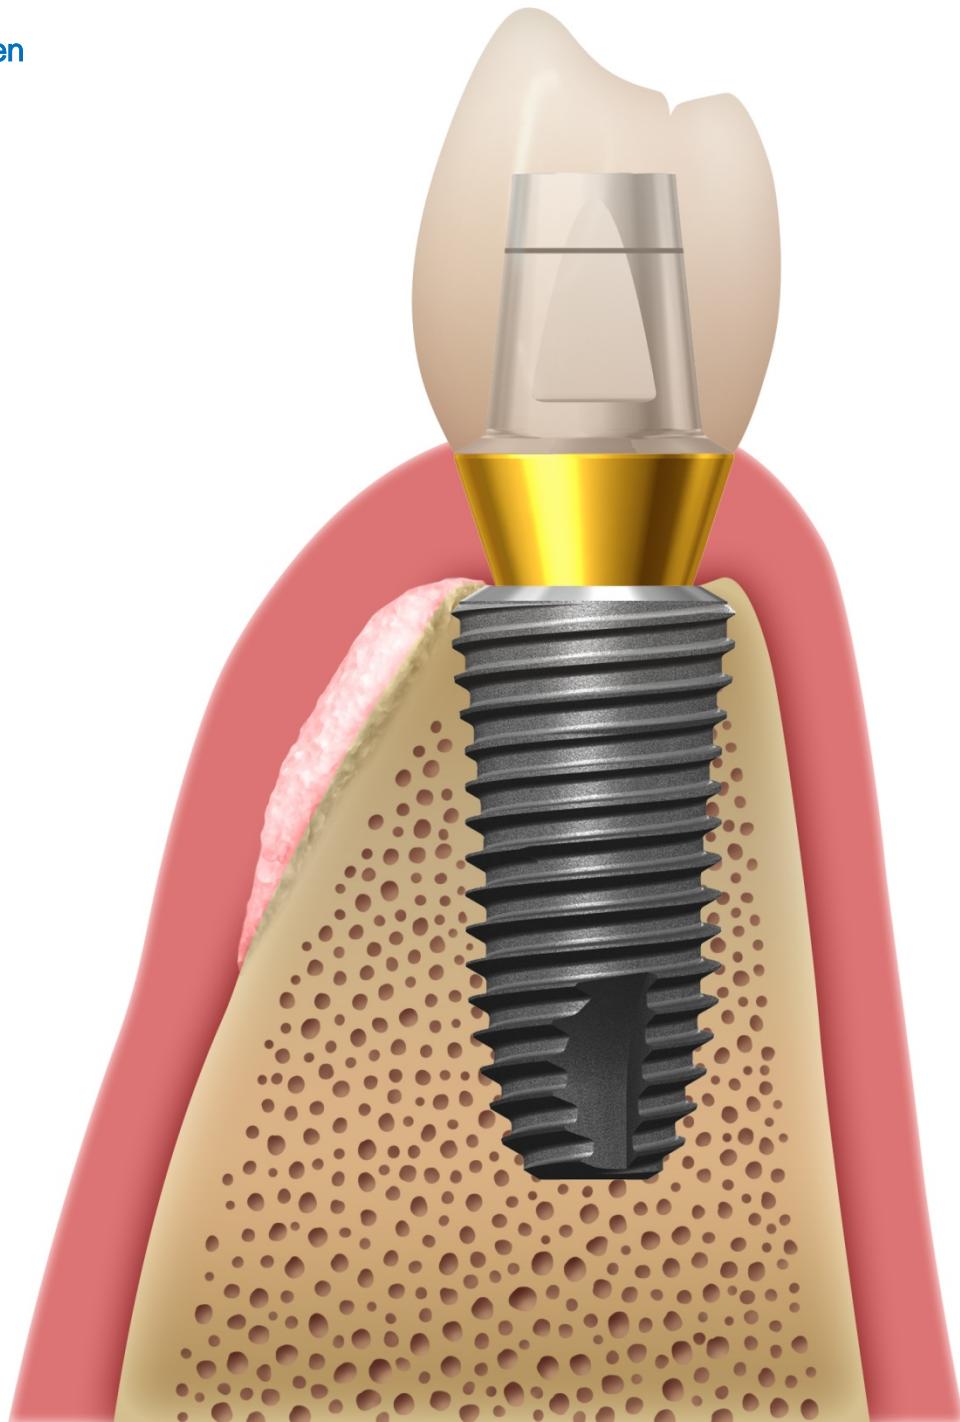

Combi abutment Ø 4.5

: CAB4515L

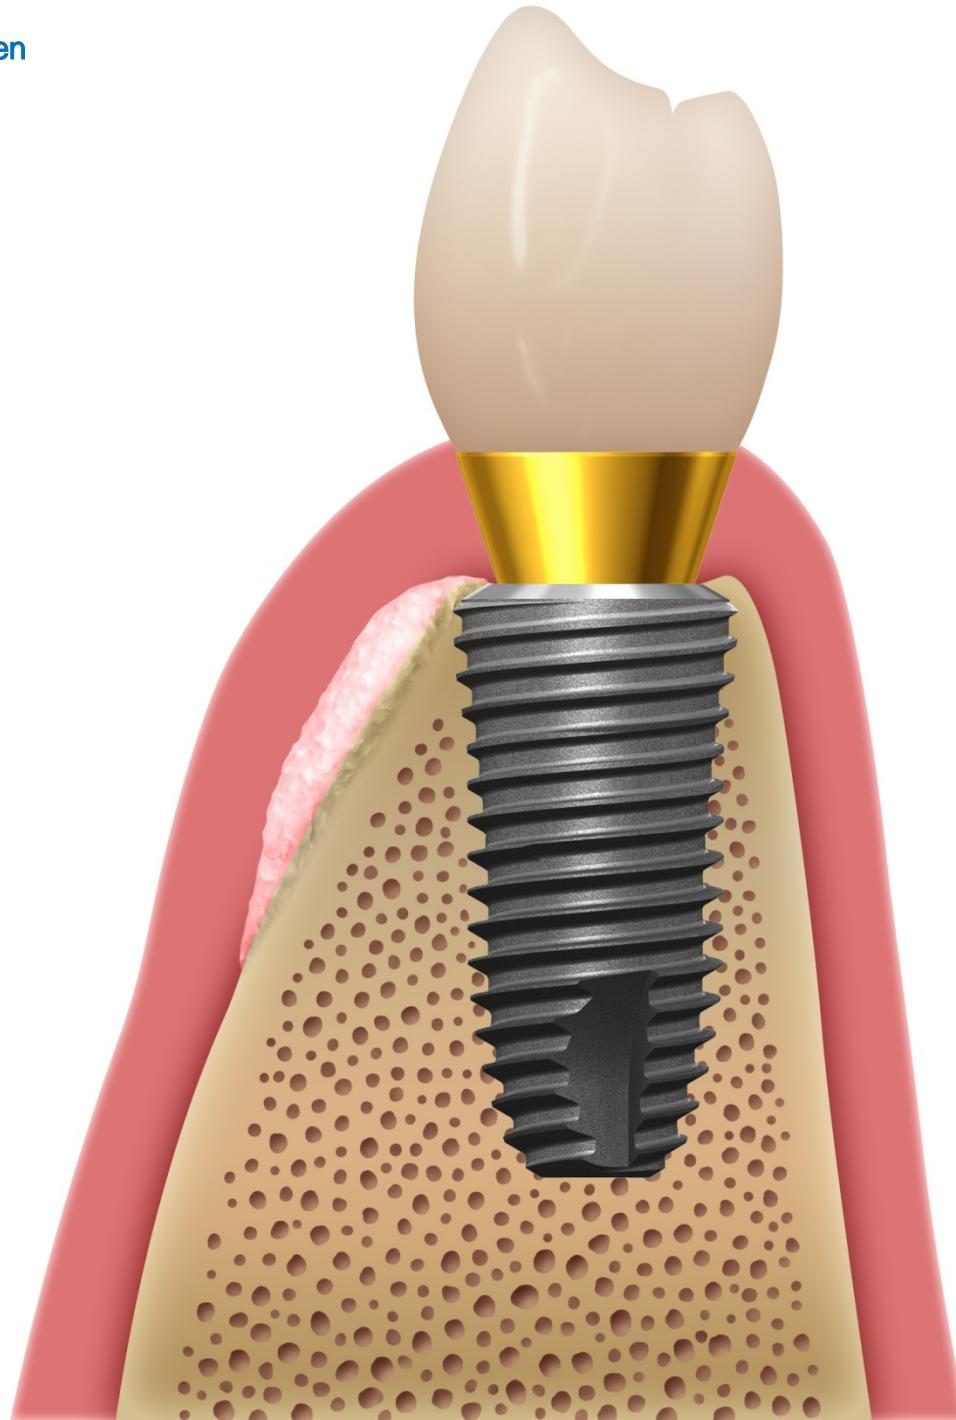

Dentium graft materials : OSTEON™II Collagen

Remodeling

Dentium graft materials : OSTEON™ II Collagen

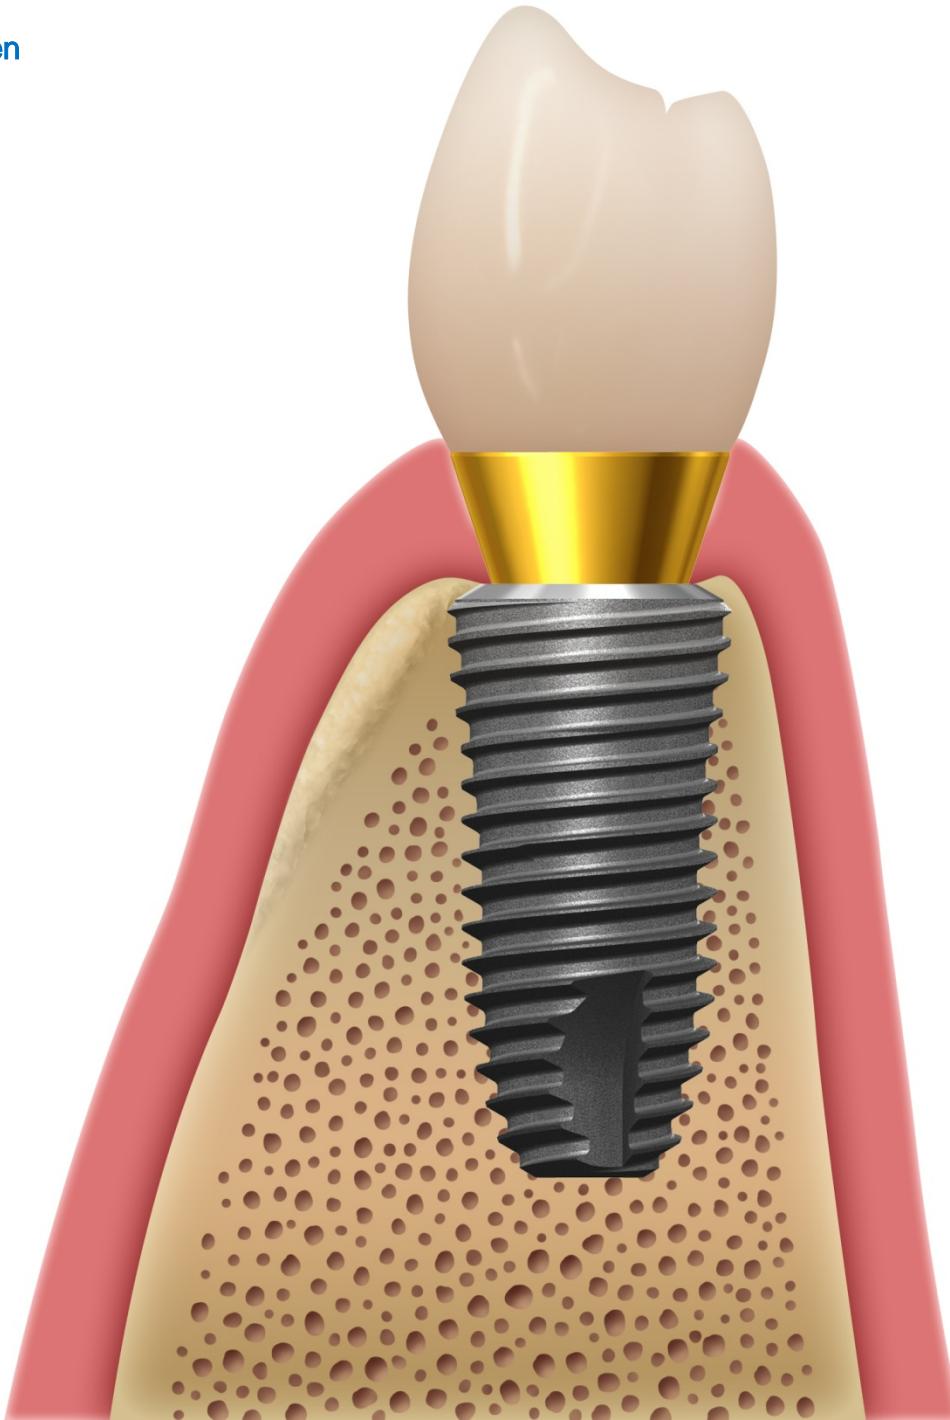

Final prosthetics

Dentium graft materials : OSTEON™ II Collagen

Final prosthetics

New bone formation

Dentium graft materials : OSTEON™ II Collagen

Final prosthetics

New bone formation
